WINTER STORM TOBY

After dropping more than a foot of snow in the past 24 hours, Winter Storm Toby finally moved out earlier today. More than 4000 flights were canceled; thousands of southern New Jersey residents were left without power Thursday morning; coastal flooding affected some towns of New Jersey.

During the storm Public Works utilized over 33 pieces of equipment as they removed snow, cleaned up, and salted the streets.

After the snow accumulated more than 4 inches, Public Works Department was assisted by private contractors who put out another 100 pieces of machinery to help them clean and prepare the roads for the morning commute. Multiple trees were down, and the workers are now busy clearing the roadways from the debris. It was the forth nor'easter of the month and one of the heaviest late March snowstorms in decades.
