Excessive drinking is responsible for more than 4,300 deaths among underage youth every year. Alcohol is considered the most commonly used addictive substance in the United States.

Did you know that young people who begin drinking before age 15 are four times more likely to develop alcohol dependence than those who begin drinking at 21? On the other hand, those who have conversations with their parents and learn about the dangers of alcohol and drugs are 50% less likely to use alcohol and drugs than those who don't have such conversations.

Therefore, Mayor David Mayer and Council President, Orlando Mercado, declare April *Alcohol Awareness Month* here in Gloucester Township. They are calling upon citizens, parents, governmental agencies, public and private institutions, businesses, hospitals, schools and colleges to help them in their mission to increase support for individuals and families coping with alcoholism. Through these efforts, together, we can provide **Hope, Help, and Healing** for those in our community who are facing challenges with alcohol use and abuse.

SHRED DAY

On Saturday, April 9th Public Works held its biannual Community Shred Day at the Public Works building. Over 420 cars lined up to have their paper and materials shredded for free! Approximately 12.89 tons of paper were shredded and recycled at this event.

Residents are often reluctant to recycle confidential documents and files due to security issues. Shred Day offers Gloucester Township residents the opportunity to shred and recycle their personal documents. Join us for the next Community Shred Day on October 13th.
