## HELP OUR TOWNSHIP RECYCLE SMARTER

As we jump into the new year, Gloucester Township would like to thank our residents for being proactive when it comes to recycling and for the continued effort to make our town an environment-friendly community. In 2018, our township collected 6,102.54 tons of recyclables making it 76.61 more tons than the previous year! By actively removing recyclables from regular trash flow, we help save our environment as well as tax dollars.

There are still many myths when it comes to what can and can't be recycled. However, recycling became easier than ever before when Mayor David Mayer introduced single-stream recycling to Gloucester Township in 2011.

In Gloucester Township, you can recycle glass containers that were previously used for food or beverages (these may be clear, brown, or green glass); metal containers such as aluminum, tin, or bi-metal food and beverage containers; plastic containers/cartons that **ONLY** display the plastic class types #1 and #2 recycling triangle **WITHOUT** the lids; residential paper which refers to newspaper and all of its inserts, catalogs, chipboard (beer & soda cartons), cereal boxes, computer paper, envelopes, gift boxes, greeting cards, junk mail, magazines, non-metallic wrapping paper, office paper, paper toilet/towel rolls, phone books, pizza boxes (without food stains), paper-back text books and work books. Also, all types of flattened, folded in half/cut down corrugated cardboard (put in cart vertically so cart will completely empty). Please do not recycle grass, leaves and brush, electronics, construction debris, diapers, Styrofoam, vinyl, food and pet waste, liquids or trash of any kind in your recycling cart.

Gloucester Township would also like to remind residents that you should **NEVER** bag recyclables. **In fact, plastic bags are the worst contaminant in the recycling stream and should NEVER go in your recycling cart.**

When a flimsy plastic bag such as your traditional grocery bag or plastic film gets into the system, it gets caught in sorting machines increasing waste and the cost of the entire process in both time and labor. Plastic bags should be returned to retailers who will recycle the bags; or you can simply go ahead and re-use them as trash-can liners, to pick-up after your dog, or you can reduce their use altogether by transitioning to reusable grocery bags. Do your part and help Gloucester Township recycle smarter in 2019!

## Campaign Results

During the holiday season, The Gloucester Township Police Department partnered with the National Highway Traffic Safety Administration (NHTSA) and participated in the national campaign: Drive Sober or Get Pulled Over Year End Holiday Crackdown. Between December 7, 2018 and January 1, 2019, the GTPD increased proactive enforcement operations utilizing marked and unmarked patrol cars to combat instances of Driving While Intoxicated (DWI) due to drugs and alcohol. As a result of these enhanced efforts, the GTPD arrested 13 offenders for DWI. Additionally, 61 drivers were issued summonses for driving with a suspended driver's license and 83 summonses were issued for careless, reckless, or otherwise unsafe driving behavior. In addition to the 13 arrests for DWI, Gloucester Township Police also made several significant arrests as a result of increased patrols for criminal violations.

Unfortunately, in December 2017, approximately 885 people were killed in crashes involving a drunk driver. The Gloucester Township Police Department was proud to work with the NHTSA in support of the Drive Sober or Get Pulled Over Year End Crackdown campaign which aims to reduce the number of people who lose their lives in traffic crashes involving DWI. Remember, drunk driving is not only illegal; it is a matter of life and death. If you see a suspected drunk driver on the road, contact law enforcement immediately to report the incident. You could save the life of that driver and any number of potential innocent victims.
