POTHOLE SEASON IS UPON US!

An important part of road maintenance is the repair of potholes. Potholes are created when moisture seeps into the pavement, freezing, expanding, and then thawing occurs. This weakens the pavement. Traffic loosens the pavement even more, and it eventually crumbles and pops out. Due to the recent severe weather the Township has experienced a high number of potholes that have been reported.

If you would like to report a pothole, you can do one of three things:

- 1) Fill out the form on our website: [here](#)
- 2) Text "Pothole" to Citibot at 856-644-6414
- 3) Call Public Works at 856-228-3144

Please note that Public Works only repairs Township roads. The County is responsible for County roads and the State is responsible for State roads and highways. Not sure if a road is a County or State road? Click below to see a full list of these roads and how to report them directly to the County or State.
