GLOUCESTER TOWNSHIP PARTICIPATES IN TAKE YOUR CHILD TO WORK DAY

On Thursday, April 25, Gloucester Township employees and officers of the Gloucester Township Police Department celebrated National Take Your Children To Work Day. They brought their kids to work to learn the responsibilities of a police officer and the operations of their local government. Children enjoyed observing their parents at work and participating in activities prepared for them by the Gloucester Township Police Department.

National Take Your Children To Work Day is celebrated on the fourth Thursday in April each year. Take Your Children To Work Day is a day designed to expose young boys and girls to what a parent or mentor in their lives does during the work day. Employers throughout the United States permit employees to bring their children to their place of employment to experience and appreciate the work that they do. It is an educational day that allows children to envision what they want to be when they grow up and their goals for the future. Each year, Take Your Children To Work Day has a theme. According to Take Our Daughters And Sons To Work Foundation, "The 2019 theme, Workforce Development For All, will empower youth through inspired personal developmental careers."

PHYSICAL SOLUTIONS: CELEBRATING 20 YEARS!

Physical Solutions is owned by Physical Therapist and long-time Gloucester Township resident, Philip Caracciolo. Phil has been a licensed Physical Therapist since 1991. It was a dream of his to open his own office and in 1999, Physical Solutions was born!

"It seemed like people in our town always needed to go somewhere else to get the treatment they needed," says Phil. This year, Physical Solutions will celebrate their 20th anniversary in Gloucester Township.

Physical Solutions provides rehabilitation for surgical patients or anyone who is suffering from back, neck, and joint pain; as well as shoulder, knee and ankle problems. Phil credits his business' success to his staff for continuously going out of their way to provide personalized service to all of their patients.

"I've met a lot of great people here over the years who have contributed to my success in many ways. I'm glad to be able to help them deal with the pain of recovery, but I'm equally blessed by the support I've received from them over these 20 years," Phil said.
