Gloucester Township Senior Services Update Continued

Debi and her staff can be found at Hider Lane Senior Drop-In Center Monday-Friday, 9:00 am - 3:30 pm. They answer phone calls and emails and keep our seniors posted on all Township happenings as well as the information provided by the Legislature's Office.

They pick up donations from Wawa twice a week, sort the food, and deliver lunches every Monday, Wednesday, and Friday. They drive to senior homes and provide various assistance based on each individual's needs. They help residents register for the vaccine and personally take seniors to mega sites to get them vaccinated.

"We have a great community and the best help from our Township's administration throughout the entire pandemic. Mayor Mayer has been of tremendous help and is always there should we need anything. At this point it is safe to say that all of our seniors are doing well and taken care of; and my staff and myself are only a phone call away!" says Senior and Community Services Director Debi Carr. "A big shout out to our Gloucester Township Police Department for checking on the vulnerable members of our community and providing us with names of those in need, Public Works for supplying masks and gloves to those seniors who can not get them, Matty Raimo, Raymond Carr, Nick Tyciak, Wawa, and all of my volunteers! Thank you for all your help!"

If you or anyone you know needs any assistance, please call Hider Lane Drop-In Center at 856-228-9015 or Mayor's Office at 856-374-3514

PUBLIC WORKS ADVISORY: POTHoles

An important part of road maintenance is the repair of potholes. Potholes are created when moisture seeps into the pavement, freezing, expanding, and thawing. This weakens the pavement; and traffic then loosens the pavement even more, and it eventually crumbles and pops out. Potholes are more difficult to repair when filled with water and will be repaired temporarily during cold weather with a cold asphalt mix because manufacturers of hot asphalt are usually closed during the winter months. During cold weather the repairs will be limited to those potholes determined to be hazardous for motor vehicles. In warmer weather and when hot asphalt mix is available, potholes will be filled with the hot asphalt mix for a more permanent repair.
