## Help GTPD Solve Crime In Your Neighborhood!

The Gloucester Township Police Department is requesting residents, businesses, and organizations that have security cameras in place on their property to complete a short registration form.

The registration DOES NOT give the Gloucester Township Police Department access to your camera system, and only allows our agency to maintain a data base reference of active cameras in the event a crime occurs in the area. For example if a burglary occurs down the street from your property, we would know your camera may have captured an image of a vehicle or suspect that could connect us to the suspects involved in the burglary. A detective would be able to contact you and ask to review the footage in hopes of identifying a suspect description or any information that can help the case.
