Save on Your Electric Bill with Community Solar – Info Session Oct. 7

Join us on October 7th at 1pm to learn how Gloucester residents can lower their electricity costs through community solar—without panels on their roof, enrollment fees, or long-term commitments. Guaranteed solar credit discounts are applied directly to PSEG or AtlanticCityElectricNJ bills, making savings simple. Both renters and homeowners are eligible to join, with priority given to low- and moderate-income households.

Space in the program is limited, so don't miss this chance to learn how it works and how to reserve your spot.

GT Recreation News & Park Improvements

Breaking Ground at Broadmoor West Park

Mayor David R. Mayer, Councilwoman Helen Albright Troxel, Councilman James Nash, and Recreation Department Head Bill Fagan recently broke ground on exciting renovations at Broadmoor West Park. The project will focus on revitalizing two key features: the tennis and basketball courts. The existing tennis courts will be repaired and resurfaced, and in response to growing demand, will also include pickleball lines and adjustable nets to allow for both tennis and pickleball play. With the sport's rising popularity, this addition is highly anticipated by residents eager for more recreational options.

The park's basketball courts, which have long served as a gathering spot for youth and families, will also see a complete transformation. The current court will be demolished and fully reconstructed to provide a safe, modern space for players of all ages. These improvements reflect Gloucester Township's ongoing commitment to community development, recognizing that parks are more than just open spaces—they are vital to creating strong neighborhoods, promoting healthy lifestyles, and fostering community connections. By investing in projects like Broadmoor West Park, the township is ensuring that residents have access to safe, high-quality facilities that bring people together and enhance quality of life.

Gloucester Township Secures Major Grant to Transform Taylor Avenue Park

Mayor David R. Mayer, Councilwoman Helen Albright Troxel, Councilman James Nash, and Recreation Department Head Bill Fagan recently visited the construction site at Taylor Avenue Park, where a major revitalization project is underway. The Township has obtained $946,630 in 100% non-matching grant funding from the New Jersey Department of Environmental Protection (NJDEP) Green Acres Program to improve the Taylor Avenue Park.

Taylor Avenue Park is located along the south side of Taylor Avenue at the intersection with Chews Landing Road and is adjacent to the Taylor Avenue Baseball Field. Before construction began, the park contained a metal play structure with multiple plastic slides, a swing set, a picnic table and benches. The overall condition of the playground equipment had deteriorated over time and had become unsafe.

The Green Acres grant will provide Township the necessary funds to replace and update the park facilities. Specifically, the Township will remove the existing playground equipment and replace with GametimeTM play systems, a swing set, a youth obstacle course, adult/senior fitness equipment, a bicycle rack, picnic tables, and benches. In addition, the existing mulch surface will be replaced with a rubber surface, and a crosswalk and sidewalk, connecting the playground to the adjacent baseball field, will be added.

Gloucester Township is proud to invite residents to celebrate the completion of this project at the official ribbon cutting ceremony on **Thursday, October 16th at 11:00 AM.** The new Taylor Avenue Park will stand as a vibrant, safe, and inclusive recreation area that reflects the Township's ongoing commitment to enhancing quality of life for all residents.

Mayor Mayer's Visits Glendora Elementary School with a New Recycling Initiative

Mayor David R. Mayer, along with the Gloucester Township Recycling Department, brought a special guest to Glendora Elementary School—GT-Rex, the Township's very own recycling helper! GT-Rex is a friendly dinosaur who makes learning about recycling fun and engaging for students.

During the visit, Mayor Mayer, GT-Rex, and the Recycling Department taught students how small changes—like separating recyclables properly—can make a big difference for the environment. The interactive program gave students hands-on tips and tools they can use at school and at home to help reduce waste.

At the end of the program, students took a pledge to be good to the environment by practicing the recycling habits they learned. With the help of GT-Rex, Mayor Mayer's initiative continues to inspire the next generation of residents to build a cleaner, greener Gloucester Township.

Let's Keep In Touch!

As your Mayor, I'm eager to hear from you should you have questions or concerns; so please do not hesitate to call my office at (856) 374-3514 or email me at dmayer@glotwp.com
I'd like to thank you for choosing our beautiful Gloucester Township as your home and for making our community a great place to live, work and play!
