(SouthWinds)

NOTES:
Bob Mintz Esq. approached the podium and explained why the applicant was here for the hearing. Mr. Mintz stated the application is a request for an extension of the existing approvals. The preliminary Grant was approved several years ago. The one (1) year extension of the Grant was approved a year ago, because of the economic conditions prolonged the project. However, unforeseen circumstances dealing with the different Federal/State Agencies with regulation changes has forced continued delay of the project. Thus, the appearance in front of the board today is warranted in order to seek another one (1) year extension.
Mr. Mintz reiterated that it is a preliminary extension request for Block: 10899 Lot:1-3
He requests that the Board consider the request.

NOTES:
Mr. Patel approached the podium stating He and His Wife Gina submitted an application for a Sub-Division of an existing vacant lot at 21 Rhode Island Rd. Erial, NJ. Mr. Patel stated that his attorneys were unable to make the meeting today, so the Patel's were sworn in.
The Patel's are the property owners. They described the R-1 Zoning for building on a property that each lot must be at least 1 acre in size. The lots in question are considerably smaller being .40 acres & .38 acres. Hence, the Patel's are requesting a Variance for a sub-division.
Mr. Bach proceeded to question Mr. Patel if they had received the letter from the Board and if he had a chance to review with his surveyor Jim Clancy and was he in agreement with all the technical requirements? Mr. Patel stated he did and all the requirements could be met.
Mr. Lechnner described the lots in question and the specifics of the Variance requested. Each lot has a Variance for Frontage, Depth and Width. Each lot needs curbs and sidewalks, utilities must be underground and since there is no public sewer, a septic system is needed.
Mr. Patel stated they had a positive soil test and all the adjoining properties have septic systems. They currently applied for Camden County Department of Health approval. Mr. Patel further agreed that curbs and sidewalks would be installed.

Vice Chairman Costa asked if there were any questions from the public?
Mr. Harry McDowel approached the podium and explained his relation to the area. He owns property adjacent to the properties in question. He states that these properties are too small for the houses being proposed. He further stated that he had major problems getting approvals for his sub-division to build on his properties that were much bigger, closer to the size required in the zoning code. He objects and disagrees with this proposal to build on these two small lots.
He was later asked: What were the dimensions of his lots?
He could not give exact dimensions but expressed that each of his lots are no less than .75 acre apiece.

Mr. Joseph Bupp approached the podium. He states he lives on the same street. He objects to the proposal of building on these two lots because of their size and the wildlife that would be displaced. He states he was looking to purchase these lots at year’s end, just to have green acres since they are nice lots and house a variety of wildlife.
He was later asked: What’s the size of his lot? He expressed at least .40 acres.

Vice Chairman Costa closed the Public questions portion of the meeting.

Vice Chairman Costa asked any questions from the Board?
Mr. Lechnner stated the lots are undersized as they exist for the zone to build. If they were un-successful in obtaining the Variance for the sub-division, they would need to go to zoning for approval to build one house on the lot.
Vice Chairman Costa asked for a motion to approve the Application.
The Board agreed this application will be tabled for 120 days in order to make a decision on how to proceed. A review will be made at the next board meeting on July 25, 2017.

Councilman Hutchinson made a motion seconded by Mr. Reagan.

NOTES:
Daniel Long, Esq. approached the podium. He is from the Law firm; Wade, Longwood & Long, representing the applicant Anthony Alberto who is requesting a minor sub-division with four (4) bulk variances.
Addison Bradley is sworn in. Mr. Bradley reiterates the purpose of the Variance. He states that there are 3 flag lots already approved here. These flag lots will be on a Private Lane called Estates Lane, with access off Chew Landing Rd. and include public sewer and utilities.
The request before the Board is to acquire another flag lot sub-divided from lot #27 with the addition of a flag pole on Estates Lane. The lot is less than an acre, so a Variance is needed for the purpose of building where the frontage is similar to the other lots.
This request provides a total of four (4) lots to be tied into the access lane, totally dependent on them to maintain and beautify that area.
Mr. Bach asked what lots are tied to the access lane? Mr. Bradley stated that all four (4) rear lots will have access to the lane and all will be responsible for its maintenance and upkeep. He also stated that after review of the boards’ letter, there are no objections to the recommendations.
Mr. Lechner stated he recommends deed restriction, that the lot has to be able to access the private lane, prohibiting access to Kelly Driver Lane.

Vice Chairman Costa asked if there were any questions from the Public?

NOTES:
Daniel Long, Esq. approached the podium. He is from the law firm Wade, Longwood & Long representing the applicant. The application for a subdivision is noted, there is NO Variance needed.
Mr. Addison Bradley approached the podium and described the property in question. He states the lots were originally sub-divided into twenty-five ft. (25’) lots. Somewhere along the line he states, they were consolidated, putting four (4) of them together, making them squarer, providing a fifty ft. (50’) frontage. The resolution is to include underground utilities unless such utilities cannot be provided because of the type of terrain which would be determined by the Utility Companies.
Mr. Bach questioned the zoning of the lot in reference to the applicant building a future structure. His concerns were to include the possibility of future Variances.
Mr. Bradley stated that if a structure were to be built in the future, the lot size meets all the zoning criteria as is. NO additional Variances will be needed.
Mr. Bradley stated that there are no current underground utilities. Mr. Bach stated that all utilities will be underground but will be left up to the utility companies’ decision.
Mr. Bradley stated that there are No Wetlands in the area.

CERTIFICATION

I HEREBY CERTIFY that this resolution of memorialization being adopted by action of the Board on this 25th day of July 2017 represents a true and correct copy of a resolution adopted by the Gloucester Township Planning Board consistent with its decision at a meeting held on the 27th day of June 2017.

KENNETH LECHNER, SECRETARY
A RESOLUTION OF THE GLOUCESTER TOWNSHIP PLANNING BOARD
MEMORIALIZING MINOR SUBDIVISION APPROVAL
WITH BULK VARIANCE RELIEF
FOR ANTHONY ALBERTO
APPLICATION NO.: 171035CM

WHEREAS, on June 27, 2017 consideration was given to the application of Anthony Alberto (hereinafter “Applicant”) for the property located at Chews Landing–Clementon Road, identified on the Tax Map for the Township of Gloucester as Block 20601, Lot 27 (hereinafter “the Property”), for Minor Subdivision approval with Bulk Variance Relief; and

WHEREAS, the Applicant is seeking approval to create one new lot in the R-1 Residential District; and

WHEREAS, Dan Long, Esq., of Wade, Long Wood & Long, appeared on behalf of the Applicant, and Mr. Addison Bradley, the Applicant’s Planner, was sworn to present testimony on behalf of the Application; and

WHEREAS, Mr. Bradley summarized the proposed subdivision plan, identified the requested variance relief, and provided testimony as to why the variance relief being requested was appropriate; and

WHEREAS, Mr. Bradley indicated that because the Application is located on a private lane, the existing residences will be benefitted as two more home owners will take part in sharing the maintenance costs associated with private access and any private utilities; and

WHEREAS, Mr. Bradley further opined that the proposed subdivision would accommodate development similar to that already existing in the neighborhood; and

WHEREAS, the Applicant agreed to all comments and conditions expressed within Board Engineer Stephen Bach’s June 23, 2017 Review Letter, to the extent not already addressed within the testimony of the Applicant. Specifically, the Applicant confirmed that the proposed lot will be deed restricted for access through Estates Lane only; and

WHEREAS, the Applicant agreed to all comments and conditions expressed within Board Planner Ken Lechner’s June 20, 2017 Review Letter, to the extent not already addressed within the testimony of the Applicant; and

WHEREAS, the meeting was open to the public, and no members of the public appeared to testify; and

WHEREAS, the Planning Board having received reports from professionals and other advisors to the Board including, without limitation, the Zoning Officer, Board Engineer, Board Planner, County Planning Board, Traffic Commander, Fire Marshall, Tax Assessor, Water Department and Municipal Utilities Authorities and having heard testimony from the Board
Planner and Board Engineer, makes the following factual findings in approving the subject application for minor site plan approval:

1. **Existing Zoning:** R-1 (Residential)

2. **Intended Use:** Creation of one new lot from an existing residential lot on a private access lane.

3. The application implicates the following provisions of the ordinance: R-4 zoning requirements under §403.

4. The Board Planner, Kenneth D. Lechner, PP, AICP, issued a report dated June 20, 2017, incorporated by reference as if set forth fully herein, recommending certain revisions, clarification and/or modifications to the plans with which the applicant agreed to comply unless otherwise outlined or modified further below, or to the extent that they had not been addressed through testimony.

5. The Board Engineer, Steven M. Bach, PE, RA, PP, CME of Bach Associates, PC, issued a report dated June 23, 2017, incorporated by reference as if set forth fully herein, indicating the need for several revisions, clarifications and/or modifications to the plan to which the applicant agreed, to the extent they had not been addressed through testimony.

**NOW, THEREFORE BE IT RESOLVED,** after considering the foregoing facts the Board concludes that the Application for Minor Subdivision Approval with Bulk Variance Relief has demonstrated that the proposed improvements will not have a deleterious effect upon the neighborhood, and has satisfied the standards necessary for approval and should therefore be approved subject to the conditions above; and

**WHEREAS,** a motion was duly made by Councilman Hutchinson and duly seconded by Mr. Regan to APPROVE the Application as set forth above, and a roll call vote on the motion was recorded as follows:

KENNETH LECHNER, SECRETARY
A RESOLUTION OF THE GLOUCESTER TOWNSHIP PLANNING BOARD
MEMORIALIZING MINOR SUBDIVISION APPROVAL
FOR CONSTRUCTION & RESTORATION, LLC
APPLICATION NO.: 171037M

WHEREAS, on June 27, 2017 consideration was given to the application of
Construction & Restoration, LLC (hereinafter “Applicant”) for the property located at 413 Price
Avenue, identified on the Tax Map for the Township of Gloucester as Block 1702, Lot 13
(hereinafter “the Property”), for Minor Subdivision approval; and

WHEREAS, the Applicant is seeking approval to create one new lot in the R-4
Residential District; and

WHEREAS, Dan Long, Esq., of Wade, Long Wood & Long, appeared on behalf
of the Applicant, and Mr. Addison Bradley, the Applicant’s Planner, was sworn to present
testimony on behalf of the Application; and

WHEREAS, Mr. Bradley summarized the proposed subdivision plan, and
indicated that the subdivision can be accomplished without variance relief; and

WHEREAS, Mr. Bradley further opined that although there are currently no
plans to construct a residence on the property, no variance relief would be necessary in order to
do so as the lot could accommodate a home that is both compliant with all application bulk
requirements and similar to existing homes in the neighborhood; and

WHEREAS, the Applicant agreed to all comments and conditions expressed
within Board Engineer Stephen Bach’s June 23, 2017 Review Letter, to the extent not already
addressed within the testimony of the Applicant; and

WHEREAS, the Applicant discussed Board Planner Kenneth Lechner’s June 20,
2017 Review Letter, and requested a waiver from the requirement to provide underground
wiring, noting that all other utilities in the area are above ground. All other comments and
conditions were otherwise agreed to, if not already addressed through testimony; and

WHEREAS, the Board imposed a condition of approval, noting that while the
Applicant is not exempt from the requirement to provide underground utilities, the Applicant
may provide above ground utilities if the Applicant can show, to the Board Engineer’s
satisfaction, that exceptions apply to the newly created lot and/or that providing underground
utilities would otherwise impose a hardship upon the Applicant; and

WHEREAS, the meeting was open to the public, and no members of the public
appeared to testify; and

1. Existing Zoning: R-4 (Residential)

2. Intended Use: Creation of one new lot from an existing residential lot.

3. The application implicates the following provisions of the ordinance: R-4 zoning requirements under §406.F.

4. The Board Planner, Kenneth D. Lechner, PP, AICP, issued a report dated June 20, 2017, incorporated by reference as if set forth fully herein, recommending certain revisions, clarification and/or modifications to the plans with which the applicant agreed to comply unless otherwise outlined or modified further below, or to the extent that they had not been addressed through testimony.

5. The Board Engineer, Steven M. 6. The Applicant has agreed, as a condition of approval, to provide underground utilities unless the Applicant can show, to the Board Engineer’s satisfaction, that exceptions apply to the newly created lot and/or that providing underground utilities would otherwise impose a hardship upon the Applicant, in which case above ground utilities may be provided.

NOW, THEREFORE BE IT RESOLVED, after considering the foregoing facts the Board concludes that the Application for Minor Subdivision Approval has demonstrated that the proposed improvements will not have a deleterious effect upon the neighborhood, and has satisfied the standards necessary for approval and should therefore be approved subject to the conditions above; and
