Application#: 051024RACPPSP
(SouthWinds)

NOTES:
Bob Mintz Esq. approached the podium and explained why the applicant was here for the hearing. Mr. Mintz stated the application is a request for an extension of the existing approvals. The preliminary Grant was approved several years ago. The one (1) year extension of the Grant was approved a year ago, because of the economic conditions prolonged the project. However, unforeseen circumstances dealing with the different Federal/State Agencies with regulation changes has forced continued delay of the project. Thus, the appearance in front of the board today is warranted in order to seek another one (1) year extension.
Mr. Mintz reiterated that it is a preliminary extension request for Block: 10899 Lot: 1-3
He requests that the Board consider the request.

NOTES:
Mr. Patel approached the podium stating He and His Wife Gina submitted an application for a Sub-Division of an existing vacant lot at 21 Rhode Island Rd. Erial, NJ. Mr. Patel stated that his attorneys were unable to make the meeting today, so the Patel’s were sworn in.
The Patel’s are the property owners. They described the R-1 Zoning for building on a property that each lot must be at least 1 acre in size. The lots in question are considerably smaller being .40 acres & .38 acres. Hence, the Patel’s are requesting a Variance for a sub-division.
Mr. Bach proceeded to question Mr. Patel if they had received the letter from the Board and if he had a chance to review with his surveyor Jim Clancy and was he in agreement with all the technical requirements? Mr. Patel stated he did and all the requirements could be met.
Mr. Lechner described the lots in question and the specifics of the Variance requested. Each lot has a Variance for Frontage, Depth and Width. Each lot needs curbs and sidewalks, utilities must be underground and since there is no public sewer, a septic system is needed.
Mr. Patel stated they had a positive soil test and all the adjoining properties have septic systems. They currently applied for Camden County Department of Health approval. Mr. Patel further agreed that curbs and sidewalks would be installed.

Vice Chairman Costa asked if there were any questions from the public?
Mr. Harry McDowel approached the podium and explained his relation to the area. He owns property adjacent to the properties in question. He states that these properties are too small for the houses being proposed. He further stated that he had major problems getting approvals for his sub-division to build on his properties that were much bigger, closer to the size required in the zoning code. He objects and disagrees with this proposal to build on these two small lots.
He was later asked: What were the dimensions of his lots?
He could not give exact dimensions but expressed that each of his lots are no less than .75 acre apiece.

Mr. Joseph Bupp approached the podium. He states he lives on the same street. He objects to the proposal of building on these two lots because of their size and the wildlife that would be displaced. He states he was looking to purchase these lots at year’s end, just to have green acres since they are nice lots and house a variety of wildlife.
He was later asked: What’s the size of his lot? He expressed at least .40 acres.

Vice Chairman Costa closed the Public questions portion of the meeting.

Vice Chairman Costa asked any questions from the Board?
Mr. Lechner stated the lots are undersized as they exist for the zone to build. If they were unsuccessful in obtaining the Variance for the sub-division, they would need to go to zoning for approval to build one house on the lot.
Vice Chairman Costa asked for a motion to approve the Application.
The Board agreed this application will be tabled for 120 days in order to make a decision on how to proceed. A review will be made at the next board meeting on July 25, 2017.

Councilman Hutchinson made a motion seconded by Mr. Reagan.

NOTES:
Daniel Long, Esq. approached the podium. He is from the Law firm; Wade, Longwood & Long, representing the applicant Anthony Alberto who is requesting a minor sub-division with four (4) bulk variances.
Addison Bradley is sworn in. Mr. Bradley reiterates the purpose of the Variance. He states that there are 3 flag lots already approved here. These flag lots will be on a Private Lane called Estates Lane, with access off Chew Landing Rd. and include public sewer and utilities.
The request before the Board is to acquire another flag lot sub-divided from lot #27 with the addition of a flag pole on Estates Lane. The lot is less than an acre, so a Variance is needed for the purpose of building where the frontage is similar to the other lots.
This request provides a total of four (4) lots to be tied into the access lane, totally dependent on them to maintain and beautify that area.
Mr. Bach asked what lots are tied to the access lane? Mr. Bradley stated that all four (4) rear lots will have access to the lane and all will be responsible for its maintenance and upkeep. He also stated that after review of the boards’ letter, there are no objections to the recommendations.
Mr. Lechner stated he recommends deed restriction, that the lot has to be able to access the private lane, prohibiting access to Kelly Driver Lane.

Vice Chairman Costa asked if there were any questions from the Public?

NOTES:
Daniel Long, Esq. approached the podium. He is from the law firm Wade, Longwood & Long representing the applicant. The application for a subdivision is noted, there is NO Variance needed.
Mr. Addison Bradley approached the podium and described the property in question. He states the lots were originally sub-divided into twenty-five ft. (25') lots. Somewhere along the line he states, they were consolidated, putting four (4) of them together, making them squarer, providing a fifty ft. (50') frontage. The resolution is to include underground utilities unless such utilities cannot be provided because of the type of terrain which would be determined by the Utility Companies.
Mr. Bach questioned the zoning of the lot in reference to the applicant building a future structure. His concerns were to include the possibility of future Variances.
Mr. Bradley stated that if a structure were to be built in the future, the lot size meets all the zoning criteria as is. NO additional Variances will be needed.
Mr. Bradley stated that there are no current underground utilities. Mr. Bach stated that all utilities will be underground but will be left up to the utility companies’ decision.
Mr. Bradley stated that there are No Wetlands in the area.

SCOTT OWENS, CHAIRMAN

CERTIFICATION

I HEREBY CERTIFY that this resolution of memorialization being adopted by action of the Board on this 25th day of July 2017 represents a true and correct copy of a resolution adopted by the Gloucester Township Planning Board consistent with its decision at a meeting held on the 27th day of June 2017.

KENNETH LECHNER, SECRETARY
A RESOLUTION OF THE GLOUCESTER TOWNSHIP PLANNING BOARD
MEMORIALIZING MINOR SUBDIVISION APPROVAL
WITH BULK VARIANCE RELIEF
FOR ANTHONY ALBERTO
APPLICATION NO.: 171035CM

WHEREAS, on June 27, 2017 consideration was given to the application of Anthony Alberto (hereinafter “Applicant”) for the property located at Chews Landing-Clementon Road, identified on the Tax Map for the Township of Gloucester as Block 20601, Lot 27 (hereinafter “the Property”), for Minor Subdivision approval with Bulk Variance Relief; and

WHEREAS, the Applicant is seeking approval to create one new lot in the R-1 Residential District; and

WHEREAS, Dan Long, Esq., of Wade, Long Wood & Long, appeared on behalf of the Applicant, and Mr. Addison Bradley, the Applicant’s Planner, was sworn to present testimony on behalf of the Application; and

WHEREAS, Mr. Bradley summarized the proposed subdivision plan, identified the requested variance relief, and provided testimony as to why the variance relief being requested was appropriate; and

WHEREAS, Mr. Bradley indicated that because the Application is located on a private lane, the existing residences will be benefitted as two more home owners will take part in sharing the maintenance costs associated with private access and any private utilities; and

WHEREAS, Mr. Bradley further opined that the proposed subdivision would accommodate development similar to that already existing in the neighborhood; and

WHEREAS, the Applicant agreed to all comments and conditions expressed within Board Engineer Stephen Bach’s June 23, 2017 Review Letter, to the extent not already addressed within the testimony of the Applicant. Specifically, the Applicant confirmed that the proposed lot will be deed restricted for access through Estates Lane only; and

WHEREAS, the Applicant agreed to all comments and conditions expressed within Board Planner Ken Lechner’s June 20, 2017 Review Letter, to the extent not already addressed within the testimony of the Applicant; and

WHEREAS, the meeting was open to the public, and no members of the public appeared to testify; and

WHEREAS, the Planning Board having received reports from professionals and other advisors to the Board including, without limitation, the Zoning Officer, Board Engineer, Board Planner, County Planning Board, Traffic Commander, Fire Marshall, Tax Assessor, Water Department and Municipal Utilities Authorities and having heard testimony from the Board
Planner and Board Engineer, makes the following factual findings in approving the subject application for minor site plan approval:

1. Existing Zoning: R-1 (Residential)

2. Intended Use: Creation of one new lot from an existing residential lot on a private access lane.

3. The application implicates the following provisions of the ordinance: R-4 zoning requirements under §403.

4. The Board Planner, Kenneth D. Lechner, PP, AICP, issued a report dated June 20, 2017, incorporated by reference as if set forth fully herein, recommending certain revisions, clarification and/or modifications to the plans with which the applicant agreed to comply unless otherwise outlined or modified further below, or to the extent that they had not been addressed through testimony.

5. The Board Engineer, Steven M. Bach, PE, RA, PP, CME of Bach Associates, PC, issued a report dated June 23, 2017, incorporated by reference as if set forth fully herein, indicating the need for several revisions, clarifications and/or modifications to the plan to which the applicant agreed, to the extent they had not been addressed through testimony.

**NOW, THEREFORE BE IT RESOLVED,** after considering the foregoing facts the Board concludes that the Application for Minor Subdivision Approval with Bulk Variance Relief has demonstrated that the proposed improvements will not have a deleterious effect upon the neighborhood, and has satisfied the standards necessary for approval and should therefore be approved subject to the conditions above; and

**WHEREAS,** a motion was duly made by Councilman Hutchinson and duly seconded by Mr. Regan to APPROVE the Application as set forth above, and a roll call vote on the motion was recorded as follows:

KENNETH LECHNER, SECRETARY
A RESOLUTION OF THE GLOUCESTER TOWNSHIP PLANNING BOARD
MEMORIALIZING MINOR SUBDIVISION APPROVAL
FOR CONSTRUCTION & RESTORATION, LLC
APPLICATION NO.: 171037M

WHEREAS, on June 27, 2017 consideration was given to the application of
Construction & Restoration, LLC (hereinafter “Applicant”) for the property located at 413 Price
Avenue, identified on the Tax Map for the Township of Gloucester as Block 1702, Lot 13
(hereinafter “the Property”), for Minor Subdivision approval; and

WHEREAS, the Applicant is seeking approval to create one new lot in the R-4
Residential District; and

WHEREAS, Dan Long, Esq., of Wade, Long Wood & Long, appeared on behalf
of the Applicant, and Mr. Addison Bradley, the Applicant’s Planner, was sworn to present
testimony on behalf of the Application; and

WHEREAS, Mr. Bradley summarized the proposed subdivision plan, and
indicated that the subdivision can be accomplished without variance relief; and

WHEREAS, Mr. Bradley further opined that although there are currently no
plans to construct a residence on the property, no variance relief would be necessary in order to
do so as the lot could accommodate a home that is both compliant with all application bulk
requirements and similar to existing homes in the neighborhood; and

WHEREAS, the Applicant agreed to all comments and conditions expressed
within Board Engineer Stephen Bach’s June 23, 2017 Review Letter, to the extent not already
addressed within the testimony of the Applicant; and

WHEREAS, the Applicant discussed Board Planner Kenneth Lechner’s June 20,
2017 Review Letter, and requested a waiver from the requirement to provide underground
wiring, noting that all other utilities in the area are above ground. All other comments and
conditions were otherwise agreed to, if not already addressed through testimony; and

WHEREAS, the Board imposed a condition of approval, noting that while the
Applicant is not exempt from the requirement to provide underground utilities, the Applicant
may provide above ground utilities if the Applicant can show, to the Board Engineer’s
satisfaction, that exceptions apply to the newly created lot and/or that providing underground
utilities would otherwise impose a hardship upon the Applicant; and

WHEREAS, the meeting was open to the public, and no members of the public
appeared to testify; and

WHEREAS, the Planning Board having received reports from professionals and

2. Intended Use: Creation of one new lot from an existing residential lot.

3. The application implicates the following provisions of the ordinance: R-4 zoning requirements under §406.F.

4. The Board Planner, Kenneth D. Lechner, PP. AICP, issued a report dated June 20, 2017, incorporated by reference as if set forth fully herein, recommending certain revisions, clarification and/or modifications to the plans with which the applicant agreed to comply unless otherwise outlined or modified further below, or to the extent that they had not been addressed through testimony.

5. The Board Engineer, Steven M. 6. The Applicant has agreed, as a condition of approval, to provide underground utilities unless the Applicant can show, to the Board Engineer’s satisfaction, that exceptions apply to the newly created lot and/or that providing underground utilities would otherwise impose a hardship upon the Applicant, in which case above ground utilities may be provided.

NOW, THEREFORE BE IT RESOLVED, after considering the foregoing facts the Board concludes that the Application for Minor Subdivision Approval has demonstrated that the proposed improvements will not have a deleterious effect upon the neighborhood, and has satisfied the standards necessary for approval and should therefore be approved subject to the conditions above; and

4. Also, the Board has the power to grant a variance when the purpose of the Municipal Land Use Law would be advanced by the deviation of the zoning ordinance and the benefits would substantially outweigh the detriments (basis N.J.S.A. 40:55-70c(2)).

NEGATIVE CRITERIA

The Board should not grant a variance unless it is clearly demonstrated that said variance can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the zone plan and zoning ordinance (basis N.J.S.A. 40:55D-70).

Address (number, street, and apt. or suite, no.): 39 Cardinal Drive

City, state, and ZIP code: Clementon NJ 08021

List account number(s) here (optional):

Social security number or Employer identification number:

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see How to get a TIN on page 3.

Note: If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or provide additional information to support your certification,
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners’ share of effectively connected income.

Note: If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester’s form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

• An individual who is a U.S. citizen or U.S. resident alien,
• A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
• An estate (other than a foreign estate), or
• A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners’ share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax.

Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

• The U.S. owner of a disregarded entity and not the entity.

#161065CM
A RESOLUTION OF THE GLOUCESTER TOWNSHIP PLANNING
BOARD MEMORIALIZING MINOR SUBDIVISION APPROVAL WITH BULK
VARIANCE RELIEF
FOR JOHN KELLER, JR.
APPLICATION NO.: 161065CM

WHEREAS, on November 11, 2016 consideration was given to the application
of John Keller, Jr. (hereinafter “Applicant”) for the property located at 1475 Kearsley Road,
identified on the Tax Map for the Township of Gloucester as Block 17801, Lot 3 (hereinafter
“the Property”), for Minor Subdivision and Bulk Variance approval; and

WHEREAS, the Applicant is proposing to subdivide an existing 2.81 acre
residential lot into two (2) residential lots in the R-1 Zoning District; and

WHEREAS, the Applicant provided a summary of the Application, and Mr.
Addison Bradley, the Applicant’s Planner, was sworn to present testimony. The lot currently
contains a residential dwelling, and the proposed new lot would be vacant, with no construction
planned at this time; and

WHEREAS, the Applicant indicated that the existing lot is bordered on both the
front and the back of the lot by access easements. While there is technically no street frontage,
the proposed subdivision will be accessible by those existing access easements which provide for
roughly 165 feet of frontage; and

WHEREAS, the Applicant submitted that the existing access easements, roughly
16.5 feet wide, are utilized by other homes in the neighborhood without issue and are adequate
for proper emergency vehicle access; and

WHEREAS, the Applicant agreed to submit a grading plan upon application for a
building permit on proposed lot 3.01, and requested a waiver of the grading plan at this time, to
which the Board agreed; and

WHEREAS, the Applicant requested a waiver of provided site features within
200 feet of the property, to which the Board agreed; and

WHEREAS, the Board questioned the applicant as to the presence of well and
septic provisions on proposed lot 3.01, and while no provisions are present, the Applicant
indicated that a plan for well and septic has been approved; and

WHEREAS, the Board questioned the Applicant as to the makeup of the existing
access easement, and the Applicant confirmed that it consists of compacted gravel which has not
been improved since its construction in 1910. The Applicant understands that because this is a
private access route, they are responsible for snow removal; and
WHEREAS, the Board indicated that under these circumstances, because no construction is proposed on lot 3.01, a waiver of the paving requirement which would otherwise require the Applicant to pave the access easement is appropriate; and

WHEREAS, the Board requested and the Applicant agreed to correct the lot numbers referenced on the plan provided to match those being proposed; and

WHEREAS, the Applicant agreed to all comments and conditions in the Board Engineer’s November 9, 2016 review letter, unless modified herein; and

WHEREAS, the Applicant addressed the comments and conditions in Board Planner Ken Lechner’s November 7, 2016 review letter, and agreed to the conditions unless modified herein; and

WHEREAS, the meeting was open to the public, and no members of the public appeared to testify; and

WHEREAS, the Planning Board having received reports from professionals and other advisors to the Board including, without limitation, the Zoning Officer, Board Engineer, Board Planner, County Planning Board, Traffic Commander, Fire Marshall, Tax Assessor, Water Department and Municipal Utilities Authorities and having heard testimony from the Board Planner and Board Engineer, makes the following factual findings in approving the subject application for minor site plan approval:

1. Existing Zoning: R-1 (Residential)

2. Intended Use: Creation of one (1) additional lot through subdivision of an existing residential lot.

3. The application implicates the following provisions of the ordinance:

   a. Gl zoning requirements under §417.F.

Application to subdivide out 1.06 acres from Lot: 10

NOTES:
Mr. Frank Tedesco Esq. representing Cross Keys MZL, LLC applicant & owner of the Gloucester Town Center project, approached the podium. He stated they are here for Minor Sub-Division Preliminary & Final Site Plan on Block 18301 Lot 10 which is about 20.3 acres at the intersection of Williamstown-Erial Rd and Berlin Cross Keys Rd. This lot is to be sub-divided into a smaller lot 1.06 acres to be know as Block: 18301 Lot: 10.04 for the purpose of building a 5,625 sq ft food establishment structure, a Taco Bell with a drive thru.
Mr. Clay Quay PE - Engineer for the applicant approached the podium and was sworn in. Mr. Clay continued his testimony on the letters he received from the board professionals. The application came before the Board over a one year ago, for review. The pad site to be used is in the Southwest Corner of the Shopping Center. He commented that there is nothing on the list that is not consistent with the proper use of the land and can be complied with to obtain the towns objective of the areas development. Further discussion continued to address points of concern in the letter. These points were:

- Trash & Loading area designation was not needed due to the way the trucks unload in relation to the building.
- Lighting plan to add 2 more poles.
- Type of architectural structure with the use of ceramic tile was explained by detailed diagramed color drawings submitted as Exhibit 1 & A1.
- Stamped asphalt to be used for walk ways.
- Signage to be handled later today.
- Truck alley to be made with textured sealer.
• Traffic impact was approved through previous approved development studies causing no concerning problems.
• Utility Connections are available.
• Waiver needed for Environmental Impact Statement (EIS) due to no concerns sited.

Mr. Lechner requested specifics on the property signage. Mr. Quay described how the signage would look and where it would be placed. He stated the main sign would be a menu board sign, with a canopy on a tower and a stone face base elevated by three feet to accommodate foliage to hide the base.

Mr. Lechner asked about a time line for completion.

Construction would start immediately upon approvals with an opening date slatted for late Spring '17

John Keller Jr.

Minor Subdivision/Bulk C
Block: 17801 Lot: 3
Location: 1475 Kearsley Rd.
Sicklerville, NJ
Divide 2.81 acre property into 2 lots:
1.0 acre & 1.18 acre
The proposed 1.0 acre lot contains a dwelling under construction.

NOTES:
Mr. Addison Bradley approached the podium for the applicant John Keller Jr. stating they were there for a Minor Subdivision. Mr. Bradley was sworn in and then provided visual renderings of the current and approved lot division zoned R1 with 165’ frontage easement. There are no roads but
access for emergency vehicles would be through the easement. There are no existing underground utilities and a grading plan will be submitted with the building permit.

Further discussion ensued with reference to concerns from Mr. Bach’s letter on assurances for all lots. A site waiver was requested for the site features within 200 ft. of the property. It was stated Mr. Keller was working on the house on the current Lot 3 and the new lot would be 3.01. Discussion continued about the proper address of the 2 lots and the placement of mail receptacles. Since the arrival of Walgreens, the addresses have been reworked and mail boxes moved for safety reasons but consistent street address was needed and suggestions were entertained. It was mentioned that a new State requirement recommends that the use of Kiosks are needed instead of mailboxes, to be used in new developments.

Discussion continued on the access to the property and if the access was to be paved or gravel left in place for access. However, the township requires a new house to have a paved access road which will be discussed later if the new lot is developed.

The property was approved for well-water and septic system.
