Sahaj Hospitality. LLC
Holiday Inn Express & Suites & Hotel
(Former B.H.P. Motel Site)

Preliminary/Final Major Site
Block: 2601, Lots: 5,6, & 7
Location: 2000 Black Horse Pike Blackwood
73 Room (4) Story - Post Expansion Possible

NOTES:
Mr. Damien DelDuca Esq. from DelDuca Lewis, LLC Law Firm approached the podium stating he is representing Sahaj Hospitality for a site plan approval on Block: 2601 Lot: 5/6/7 for the purpose of building a Four-Story Holiday Inn Express Hotel.

Mr. DelDuca produced and submitted color renderings of presentation plan and elevations as exhibits to help in the description of the property development. Mr. DelDuca continued to describe its location on the former site of the Black Horse Pike Motel on Lower Landing Road in the Glen Oaks Redevelopment area. He stated his client was designated as the developer for this property in the Redevelopment agreement. They are appearing here in front of the Board as the next step in the process of obtaining final site approval for building, focusing on the particulars of the site improvements. He briefly mentioned some of the points he will be discussing such as the footprint on the lot, parking lot, retention walls, drainage, trash enclosure, landscaping, lighting, etc.

Mr. DelDuca reintroduced the color renderings as Exhibit A1 & A2. He then asked Mr. Krunal Patel to testify, who was sworn in. He is the principal purchaser of the project. He stated the property is a typical Holiday Inn Express with 73 rooms of limited services, such as a pool fitness room or continental breakfast w/ no other food or bar services. The average employee load would be 35-40 with avg. of 12-15 working at the same time with a 24hrs front desk service. Access to building only by 24hr. front lobby w/ keyed access till 9pm through rear entrance. There will be only general hotel supplies by common small carrier during normal working hours.

Mr. DelDuca and Mr. Patel continued to entertain Board questions. It was noted that there is a possible 12 room expansion capability if needed in the future but not ever to exceed 100 rooms total.

Mr. DelDuca introduced Dave Kreck – Project Engineer who prepared those plans. Mr. Kreck was sworn in and recognized as a professional.

Mr. DelDuca asked Mr. Kreck to outline what is proposed. Mr. Kreck described the general layout & development of the property & requirements, such as:

a) Future room expansion – poss. 12 room expansion.
b) Parking spaces as related to the amount of the rooms more than adequate.
c) The entrance locations – only one way in or out in the front of property.
d) Handicapped parking – established closest to front door.
e) Flood hazard areas identified by DEP.
f) Additional parking – to the rear & left of the hotel.
g) Water front development plans.
h) Water runoff management – so as not to impact wetlands area on the rear of property.
i) Tidal claimed areas – lower half nearest to inlet.
j) Retaining wall – rear of property to maintain consistent support from 30 ft. drop sloping area.
k) High water mark as in relation to the floor of the hotel.
l) Sight lines of the hotel – mostly hidden by tree line but exposed to houses at the properties rear.
m) Property aesthetics – proper positioning of the building on the lot w/ landscaping.

n) Lighting improvements – evenly distribute parking lot lighting with avg. lumens.

o) Property setbacks – setbacks according to redevelopment site planning.

p) Loading zone – located rear of property.

q) Noise – none to be created even with the outside patio.

r) Signage – monument sign and 2 large mounted on sides of building, none facing residential areas, incorporate Gloucester Township into the sign base on the corner of lower landing and black horse pike.

s) Front door canopy – enlarged to capture passing state highway traffic.

This was the end of the site plan proposals but Mr. DelDuca went on to discuss some submission waiver requirements with Mr. Kreck before answering any questions on the plan proposals. The following waivers were discussed:

a) Traffic report – to be submitted through the County and DEP for water front development permit.

b) DEP Requirements – LOI (Letter of Interpretation from DEP) establishing wetlands existence and LOV (Line of Verification) establishing the wetlands parameters already submitted.

Flood hazard areas already established with the verification of mean water line.

This water line verification allowed progression to Phase 2 – Land development.

Land improvements/development not anywhere near the wetlands, 50’ buffer but permit needed for water front development.

Storm water runoff has a stable discharge to water level above high-water line.

All outside approvals/permits will be submitted to the Board.

Mr. Bach had requested an environmental statement for Phase 1 but its was noted that it was not readily available and that Mr. DelDuca will investigate to get one from previous approval since the property has always been approved as a hotel site.

Mr. DelDuca had asked Mr. Kreck about the bike path indicated in Mr. Lechner’s letter.

Mr. Kreck responded that the PSE&G easement of the Fitness Trail will be connected to the hotel by way of a stripped bike way with signage on Lower Landing road provided it is approved by the County.

Mr. Kreck stated that there was one last problem needing a waiver. He stated that the structural engineer had a problem with the foundation for the masonry trash enclosure. Since the enclosure was so close to the embankment, he wanted to down-grade the enclosure to a fence, so that there would not be such an extensive footing needed for the masonry wall enclosure. A slight discussion ensued where further solutions can be investigated for its placement so as to meet the zoning requirement.

Mr. Bach suggested timber railings on the edge of the embankment, further discussion.

Further discussion ensued:

rear entrance - the rear door is enclosed by a fence w/ a gate. The rear entrance with be unlocked but key card accessible only after 10pm.

Sidewalks – sidewalks will be extended to ends of property and replaced where existing.
Chairman Owens asked if there were any questions form the Board?
None

Chairman Owens asked if there were any questions form the Public?
  1. Kenneth Benson – adjacent to the property in question.
     Mr. Benson was concerned with the quality of life for the area residents.
     He does not see the need for this hotel nor the height of the structure.
     He was concerned about what type of clients will be residing at this hotel.
     He doesn’t see that this is the appropriate place for this establishment.

  2. Terry Watsmore – Lives on Front Street
     Mr. Watsmore was concerned about the environmental impact and traffic caused
     by the hotel.

  3. Matthew Gail – Lives on Front Street

1. The Applicant is Sahaj Hospitality, LLC. The Subject Property is 2000 Black Horse Pike, identified on the Tax Map for the Township of Gloucester as Block 2601, Lots 5, 6, & 7.

2. The Property is located within the Glen Oaks Redevelopment Overlay District of the Glen Oaks Redevelopment Area (GOR).

5. The typical bulk and setback variances set forth in the Land Development Ordinance of the Township of Gloucester are not applicable to applications within the Glen Oaks Redevelopment Overlay District of the Glen Oaks Redevelopment Area (GOR). Applicants must comply with the goals and objectives of the redevelopment plan regarding land uses and architectural considerations to the satisfaction of the Planning Board and its professionals, which were also previously considered and reviewed by the Township Council.

6. The Board Planner, Kenneth D. Lechner, PP. AICP, issued a report dated November 14, 2017, incorporated by reference as if set forth fully herein, recommending certain revisions, clarification and/or modifications to the plans with which the Applicant agreed to comply unless otherwise outlined or modified further below, or to the extent that they had not been addressed through testimony or granted a waiver.

8. The Applicant will work with the Board Engineer to review appropriate NJDOT standards and provide guide rails on the Property where appropriate.

NOW, THEREFORE BE IT RESOLVED, after considering the foregoing facts the Board concludes that the Application for Major Subdivision and Preliminary and Final Major Site Plan Approval has demonstrated that the proposed improvements will not have a deleterious effect upon the neighborhood, and has satisfied the standards necessary for approval and should therefore be approved subject to the conditions above; and

WHEREAS, a motion was duly made by Mr. Regan and duly seconded by Mr. Dintino to APPROVE the Application as set forth above, and a roll call vote on the motion was recorded as follows:
