### IV. APPLICATION SUBMISSION CHECKLIST

The Application has been reviewed for compliance with §817, Submission Checklist for minor subdivision. The Applicant must address the following omitted checklist requirement or request a waiver:

1. Proposed structures and uses of the tract, i.e., size, height, location, arrangement, and architect’s scaled elevation of the front, side and rear of any structure to be modified, with building lighting details and attached signs. [Checklist #39].

### V. WAIVER COMMENTS

The Applicant is requesting a waiver from the following required checklist items:

1. Floor plans where multiple or more than one use is proposed that have different parking standards [Checklist #42].
2. Existing signs including the location, size, and height [Checklist #43].
3. Proposed signs including the location, size, height and scaled elevations of the front, side, and rear of any side directed or modified including sign lighting details [Checklist #44].
VI. VARIANCE COMMENTS

The instant application requires the following variances:

§409, Senior Citizen Residential

D1 – Use Variance

1. The construction of fee-simple townhouses with no age-restrictions within the SCR – Senior Residential District.
   a. The SCR – Senior Citizen Residential District requires a minimum of 80% of the residents be the age of 55 years or older as per §409.E(6), General District Requirements.

2. Community Center: (not provided v. 3,450 sf minimum required).
3. Lot depth: (90 ft. provided v. 100 ft. minimum required).
4. Side yard (end wall): (15 ft. provided v. 20 ft. minimum required).
5. Parking setback: (29 ft. provided v. 35 ft. minimum required).
6. Units/structure: (8 provided v. 6 maximum allowed).

POSITIVE CRITERIA ("C1" and "C2" variances)

The Applicant must address and the Zoning Board of Adjustment consider the following in satisfying the positive criteria for the requested variances:

7. The Board has the power to grant a variance where by reason of exceptional narrowness, shallowness, shape, or topographic conditions or physical features, or an extraordinary and exceptional situation affecting a specific property, the strict application of the zoning regulations would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship upon the development of such property (basis 40:55D-70c(1)).

Also, the Board has the power to grant a variance when the purpose of the Municipal Land Use Law would be advanced by the deviation of the zoning ordinance and the benefits would substantially outweigh the detriments (basis N.J.S.A. 40:55-70c(2)).

POSITIVE CRITERIA ("D1" use variance)

The Applicant must address and the Zoning Board of Adjustment consider the following in satisfying the positive criteria for the requested "D1" variances:

8. The Board has the power to grant a variance for a use or principal structure in a district restricted against such use or principal structure (basis N.J.S.A. 40:55-70d(1)).
   a. A use variance must meet the statutory "special reasons" standards; the zoning purpose most amplifying the meaning of special reasons is, the promotion of the general welfare (basis Medici v. BPR Co., 107 N.J. 1 (1987)).
      i. The Applicant must identify and provide an analysis of those special reasons of zoning that are applicable to the application.
      ii. The Applicant must provide testimony addressing the "enhanced quality of proof and clear specific findings" that the variance sought is not inconsistent with the Master Plan and Zoning ordinance.
      iii. Furthermore, "such proofs and findings must satisfactorily reconcile the grant of the use variance with the ordinance's continued omission of the proposed use from those permitted in the zone."
NEGATIVE CRITERIA

The Board should not grant a variance unless it is clearly demonstrated that said variance can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the zone plan and zoning ordinance (basis N.J.S.A. 40:55D-70).

Balancing Test (basis Sica v. Board of Adjustment Tp. of Wall, 127 NJ 152, 162 – 166 (1992)).

1. Identify the public interest at stake.
2. Identify the detrimental effects that would result by the grant of a variance.
3. Determine if the detrimental effects may be mitigated by imposing reasonable conditions.
4. Weigh the benefits against the mitigated negative effects to determine if on balance the grant of a variance would cause substantial detriment to the public good.

IV. GENERAL REVIEW COMMENTS AND SPECIAL CONCERNS

1. Master Plan
   
   a. The Applicant must provide testimony addressing consistency of the instant application with the Senior Citizen Residential (SCR) Land Use Classification of the Master Plan and the SCR – Senior Citizen Residential Zoning District.

The master plan describes the SCR Land Use Classification, as follows:

The Senior Citizen Residential land use classification is intended for a mix of residential and health care uses in a planned, integrated whole. Specifically proposed for continuing care retirement communities, less comprehensive development would also be permitted on appropriately sized parcels. Residency would be restricted to persons 55 years old or older. Examples of the type of uses permitted would be small scale detached dwellings at a net density of 5-7 units per acre, attached units in 2-6 unit buildings, congregate care apartments, assisted living, and skilled nursing care. Larger sized parcels would permit a full range of senior citizen housing with varying incorporation of health care and personal services. Other types of senior citizen housing as outlined in the Land Use Issues section of this element, may be appropriate as conditional uses on a range of lot sizes.
2. Use Variance Plan
   a. It's recommended the Applicant address the following:
      i. Installation of concrete sidewalks along Hider Lane and Little Gloucester Road as per §516. Sidewalks, curbs, gutters & pedestrian ways.
      ii. The proposed Stormwater Management Basin and its proximity to an apparent flood limit line as per §517, Stormwater Collection and Management.
      iii. Impacts, if any, regarding the "approximate location of freshwater wetlands area" and "Approximate Flood Limit Line" as per §519, wetlands, Stream Encroachment, Environmental Constraints.
      iv. The proposed open space plan including but not limited to use, the "5' wide pedestrian easement typical," and proposed site improvements, if any.

IX. LAND DEVELOPMENT ORDINANCE COMMENTS

The Applicant is advised of the following additional requirements of the Land Development Ordinance:

1. A soil removal plan if soil is to be removed from the site for use or sale other than the premises subject to this application as per §801.C, Soil Removal.

2. A grading plan prepared and sealed by licensed professional engineer as per §814, Grading Approval.

3. Affordable housing requirement as per §902, Affordable Housing Fees and Procedures.

4. Before recording final subdivision plats or as condition of final site plan approval or as a condition to the issuance of a zoning permit pursuant to N.J.S.A. 40:50D-65d the furnishing of a performance guarantee, maintenance guarantee, and inspection fees as per §903, Guarantees and Inspections and §904, Certification or Guarantee Required; Estimate of Guarantee.

5. Requirements precedent to construction as per §905, Pre-conditions to Commencement of Construction.

6. Construction of off-tract improvements as per §906, Off-Tract Improvements Recapture.

7. A zoning permit is required prior to the issuance of any construction permits and prior to the issuance of a Certificate of Occupancy by the Construction Official the Applicant must acquire a Certificate of Zoning Conformity from the Zoning Officer as per §1102, Permits, General, §1103, Zoning Permit and §1104, Certificate of Zoning Conformity.
