Recording Secretary,

WHEREAS, on May 8, 2018, consideration was given to the application of 16Rem, LLC (hereinafter “Applicant”) for the property located at 2408 Garwood Rd, identified on the Tax Map for the Township of Gloucester as Block 15202, Lot 17 (hereinafter “Property”), for Minor Subdivision approval; and

WHEREAS, the Applicant is seeking approval to subdivide the Property, which contains approximately 1.04 acres (45,164 sf) of land, into three lots, Lot 17, Lot 17.01, and Lot 17.02, in the R-3 Zoning District; and

WHEREAS, John C. Penberthy, Esq., appeared on behalf of the Applicant, and Mr. Jeffrey Wallace was sworn in and testified on behalf of the Applicant; and

WHEREAS, Mr. Penberthy introduced the Application and summarized the proposed subdivision plan, and indicated that the subdivision may also require the grant of variance relief due to an existing non-conformity at the Property, as well as a waiver for providing sidewalk; and

WHEREAS, Mr. Wallace testified that he intends to completely rehab the existing dwelling on the Property; described the orientation of the existing dwelling on the Property; that he intends to ultimately build nice, new homes on Lots 17.01 and 17.02, which will increase tax revenue for the Township; and

WHEREAS, the Board Engineer, Steven M. Bach, PE, RA, PP, CME of Bach Associates, PC, and the Board Planner, Kenneth D. Lechner, PP, AICP, clarified with Mr. Penberthy that the Board was treating the Property’s front yard setback of 28.2 ft whereas 30 ft is required by ordinance as an existing non-conformity that does not require the grant of bulk variance relief and therefore notice of this application was not required under the Municipal Land Use Law (“MLUL”), N.J.S.A. 40:55D-1 et seq.; and

WHEREAS, the Board, Board professionals, and the Applicant discussed the Applicant’s request for a waiver from installing sidewalk; and the Board Engineer explained it is the Township’s requirement to install sidewalks along the frontage of the Property; and Mr. Wallace testified the Applicant is requesting a waiver because no other properties nearby have sidewalk; and the Board Planner and Board Engineer recommended sidewalks for safety; and ultimately the Applicant agreed to install the sidewalk as directed by the Board Engineer and Board Planner, negating the need for a waiver; and

WHEREAS, the Applicant agreed to all comments and conditions expressed within Board Engineer Stephen Bach’s April 19, 2018 Review Letter, to the extent not already addressed by the testimony of the Applicant; and
WHEREAS, the Applicant agreed to all comments and conditions expressed within Board Planner Kenneth Lechner’s April 12, 2018 Review Letter, to the extent not already addressed by the testimony of the Applicant; and

WHEREAS, the Board imposed a condition of approval, noting that the Applicant must provide the following notes on the final plans: (1) certification from a licensed, recognized professional as to the absence of wetlands on the Property; (2) the required driveway; (3) underground wiring; and (4) the disposition of the existing well; and the Applicant will also obtain the necessary demolition permits; and

WHEREAS, the meeting was opened to the public, and no members of the public appeared to testify; and

WHEREAS, the Planning Board having received reports from professionals and other advisors to the Board including, without limitation, the Zoning Officer, Board Engineer, Board Planner, County Planning Board, Traffic Commander, Fire Marshall, Tax Assessor, Water Department and Municipal Utilities Authorities and having heard testimony from the Board Planner and Board Engineer, makes the following factual findings and conclusions of law in approving the subject application for minor subdivision approval:

1. Existing Zoning: R-3 (Residential).

2. Intended Use: subdivide existing residential lot 17 into 3 new residential lots: Lot 17, Lot 17.01, and Lot 17.02. There is an existing residential dwelling on Lot 17 and the Applicant intends to build new residential homes on Lot 17.01 and Lot 17.02 in the future, although no new construction plans have been submitted in connection with the minor subdivision application.

3. The Board Planner, Kenneth D. Lechner, PP, AICP, issued a report dated April 12, 2018, incorporated by reference as if set forth fully herein, recommending certain revisions, clarification and/or modifications to the plans with which the Applicant agreed to comply unless otherwise outlined or modified further herein, or to the extent that they had not been addressed through testimony.

4. The Board Engineer, Steven M. Bach, PE, RA, PP, CME of Bach Associates, PC, issued a report dated April 19, 2018, incorporated by reference as if set forth fully herein, indicating the need for several revisions, clarifications and/or modifications to the plans with which the Applicant agreed to comply unless otherwise outlined or modified further herein, or to the extent that they had not been addressed through testimony.

5. With regard to the requested minor subdivision approval, through the evidence submitted and testimony presented by the Applicant’s witnesses, professionals, the Board’s professionals, and members of the public, the Board finds and concludes that the proposed minor subdivision complies with all minor subdivision and other standards, specifications, and requirements established by
the Township’s zoning ordinance not addressed by variances and waivers as detailed herein, and that the Subject Property is suitable for the proposed subdivision given the sufficient size of the Subject Property and permitted residential uses in the R-3 Zone. See, e.g., Levin v. Livingston Twp., 35 N.J. 500, 510–11 (1961); Pizzo Mantin Group v. Randolph Twp., 261 N.J. Super. 659 (App. Div. 1993), aff’d as modified, 137 N.J. 216 (1994).

NOW, THEREFORE BE IT RESOLVED, after considering the foregoing facts the Board concludes that the Application for Minor Subdivision Approval has demonstrated that the proposed improvements will not have a deleterious effect upon the neighborhood, and has satisfied the standards necessary for approval and should therefore be approved subject to the conditions stated herein and/or on the record; and

WHEREAS, a motion was duly made by Mr. Dintino and duly seconded by Ms. Washington to APPROVE the Application as set forth above, and a roll call vote on the motion was recorded as follows:

PROJECT SUMMARY:

Existing Lot 11 is a 1.9 acre (83,898 sf) parcel of land located on the northeasterly side of Kelly Driver Road, southeast of Downs Avenue in the Township’s R-1 Residential Zoning District. It shall be noted that there is an existing 2 story frame dwelling to remain as part of proposed Lot B and no construction is proposed at this time for proposed Lot A. It shall be further noted that proposed Lot B will be a land locked lot and an access and utility easement is proposed as part of Lot A. The applicant is seeking a Minor Subdivision approval with variances.

9. Checklist Item #74 – Within a distance of 200 feet of the development show the names, locations and dimensions of all existing streets and existing driveways, and any connection by the development to existing streets, sidewalks, bike routes, water, sewer, or gas mains. **Our office has no objection to a waiver being granted for this item.**

The above items must be provided or waivers granted prior to the application being deemed "Complete."

**VARIANCES/WAIVERS:**

The applicant is requesting the following variances and waivers:

1. Minimum Lot Area – § 403 (F). The applicant is proposing a lot area of 0.928 Acres (40,336 sf) for proposed Lot B where 1 acre (43,560 sf) minimum is required.

2. Minimum Rear Yard Setback – § 403 (F). The applicant is proposing a rear yard setback of 44.81 feet where 75 feet minimum is required. It shall be noted that this is an existing condition that will not be worsened by the proposed subdivision.

3. Maximum Lot Cover – § 403 (F). The applicant is proposing a lot coverage of 38% for proposed Lot B where 30% is the maximum allowed.

4. The notes shown on the plan indicate a waiver is requested for checklist item #29. However, this is not a checklist requirement for Minor Subdivision.

The applicant has not requested a variance for the following non-compliance:

1. Min. Lot Frontage – § 403 (F). The applicant has not requested a variance for Lot Frontage for the submitted subdivision application. However, it shall be noted proposed Lot B will be land locked and therefore have no street frontage. Per Article II, Section 202 of the Gloucester Township Ordinance, Frontage is "The horizontal distance between the side lot lines measured along the street". The lot frontage of proposed Lot B will be 0’ and a variance will be required.
REVIEW COMMENTS:

We have reviewed all information submitted for conformance with the Township's Land Development Ordinance and offer the following comments for your consideration:

1. The applicant's Land Surveyor is responsible for ensuring that all lots, dedications and easements have proper closure and shall submit legal descriptions and lot closure reports to our office for review.

2. The zoning chart shown on the Subdivision Plan shall be revised to indicate the frontage of Lot B as '0' feet as indicated in Variances / Waivers section above.

3. The Plan shall list a point of beginning for each legal description submitted.

4. The applicant shall provide on the plan, a certification from a licensed professional that wetlands, transition areas and any associated buffers do not affect any portion of the subdivided lots. If the applicant cannot provide the certification than a wetlands delineation shall be performed by a certified professional and the wetlands line and associated buffer shall be depicted on the subdivision plan.

5. A certification that the new lot numbers have been assigned by the tax assessor must be provided and these numbers shall be shown on the plan.

6. Per NJAC 46:26B-2.b(7) "All permanent easements, including sight right easements and utility easements, shall be shown and dimensioned". The plan shall be revised to clearly show the bearings and distances for each course of the proposed easements.

7. The plan indicates the right of way of Kelly Driver Road as 33.00 feet wide while the tax map indicates a total right of way width of 76.00 feet for Kelly Driver Road. The surveyor shall show an additional 13.50 feet for a right of way dedication.

8. The plan shall indicate the location of all existing utilities servicing proposed Lot B. Any utilities not located within the proposed access and utility easement will have to be relocated or additional easements provided.

9. The Applicant shall obtain all required approvals from all other Local, State and Federal agencies having jurisdiction over this project.

Any approvals by the Board should be conditioned upon the applicant addressing the above outstanding items.

When plans are resubmitted for review they shall be accompanied by a point by point response letter keyed to the comments contained in this letter.
We reserve the option to make additional comments as more information becomes available.

If there are any questions or if any additional information is required please contact this office.

V. VARIANCE REVIEW COMMENTS

The application as submitted requires the following variances.

LOT A

1. Lot Area: (±0.953 ac. v 1 ac. minimum required).

LOT B

2. Lot Area: (±0.926 ac. v 1 ac. minimum required).

3. Lot frontage: (0 ft. provided v. 125 ft. minimum required).

4. Lot coverage: (38% provided v. 30% maximum allowed).

POSITIVE CRITERIA ("C1" and "C2" variances)

The Applicant must address and the Planning Board consider the following in satisfying the positive criteria for the requested district setback variances:

3. The Board has the power to grant a variance where by reason of exceptional narrowness, shallowness, shape, or topographic conditions or physical features, or an extraordinary and exceptional situation affecting a specific property, the strict application of the zoning regulations would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship upon the development of such property (basis 40:55D-70c(1)).
4. Also, the Board has the power to grant a variance when the purpose of the Municipal Land Use Law would be advanced by the deviation of the zoning ordinance and the benefits would substantially outweigh the detriments (basis N.J.S.A. 40:55-70c(2)).

NEGATIVE CRITERIA
The Board should not grant a variance unless it is clearly demonstrated that said variance can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the zone plan and zoning ordinance (basis N.J.S.A. 40:55D-70).

VI. SUBDIVISION REVIEW COMMENTS
1. The plan must be revised providing the requirements for residential driveways as a minimum 2” FABC I-5 surface course on 6” quarry blend stone or 4” thick NJDOT Class B Concrete course with No. 9 reinforcement wire or equivalent on a stabilized base course, or 6” thick NJDOT Class B concrete on a stabilized base course for “Proposed Access Easement” as per §424.A. Driveways (Residential).

2. The Applicant must provide Deeds of Dedication and legal descriptions for the right-of-way dedication, access easement, and lots as per §503.D. Easements/Restricted Covenants.

3. The Applicant must provide a deed narrative addressing administration and maintenance of the proposed access easement as per §503.D. Easements/Restricted Covenants.

4. The plan shall be revised to provide additional right-of-way as per §515.G. street Design.
   a. Based on tax map information it appears Kelley Driver Road has a proposed right-of-way of 76.50 feet; therefore, an additional thirteen and fifty hundredths (13.50) feet would be required.

5. Should the Board approve a waiver for proposed grading as per §506, Grading the plan must be revised to add a general note indicating compliance with §614, Grading Approval.

6. The plan must be revised to provide concrete curb as per §516, Sidewalk, Curbs, Gutters & Pedestrian Ways.

VII. LAND DEVELOPMENT ORDINANCE COMMENTS
The Applicant is advised of the following additional requirements of the Land Development Ordinance:

1. A soil removal plan if soil is to be removed from the site for use or sale other than the premises subject to this application as per §801.C, Soil Removal.

2. A grading plan prepared and sealed by licensed professional engineer as per §614, Grading Approval.

3. Affordable housing requirement as per §902, Affordable Housing Fees and Procedures.

4. Before recording final subdivision plats or as condition of final site plan approval or as a condition to the issuance of a zoning permit pursuant to N.J.S.A. 40:50D-65d the furnishing of a performance guarantee, maintenance guarantee, and inspection fees as per §903, Guarantees and Inspections and §904, Certification or Guarantee Required; Estimate of Guarantee.

5. Requirements precedent to construction as per §905, Pre-conditions to Commencement of Construction.
6. Construction of off-tract improvements as per §906, Off-tract Improvements Recapture.

7. A zoning permit is required prior to the issuance of any construction permits and prior to the issuance of a Certificate of Occupancy by the Construction Official the Applicant must acquire a Certificate of Zoning Conformity from the Zoning Officer as per §1102, Permits, General, §1103, Zoning Permit and §1104, Certificate of Zoning Conformity.

VIII. RECOMMENDATIONS

1. The Applicant must address the above referenced underlined comments.

RE: CROSSROADS VILLAGE LLC
    #051024RACPPSP (Southwind)

Dear Mr. Lechner:

Please recall my representation of Crossroads Village LLC which, under Resolution 171031E (attached), received an extension through June 30, 2018.

Within the minutes of that presentation (attached), the basis for the extension was the necessity to deal with different Federal and State agencies, whose regulations mandated changes respecting the wetlands, Letter of Interpretation, buffer averaging, stream encroachment, and similar circumstances, which forced delay of the project.

Such regulatory delay provides under NJSA 40:55D-49(f) a one-year extension, applied for prior to what otherwise would be the expiration of preliminary approval. That was the factual circumstance of the June 27, 2017 application and hearing, which granted the extension to June 30, 2018.

The project is now in a position to submit for amended preliminary approval and final request for major subdivision and subdivision, which is expected to be submitted on or about June 1, 2018.

As such, in order to assure the continuation of the prior approvals pending a hearing on the final plan, we ask the Board consider an extension under 40:55D-49(C), which would then constitute the second discretionary Board extension, since the sub-section (f) governmental review extension, noted above, is in addition to the discretionary extensions.
We ask your consideration of this matter and would appreciate your advice, should you have a formal application and/or fee that is required for submission. It is not my understanding that such an application or fee is required and, thus, I submit this letter as the application, subject to your advice to the contrary.

Thank you for your consideration in this matter. Please feel free to call at your convenience to discuss this request. I await your advice as to a hearing date, and remain,

Very truly yours,

Robert D. Mintz

Crossroads Village, LLC
Application#: 051024RACPPSP
(South Winds)

NOTES:
Bob Mintz Esq. approached the podium and explained why the applicant was here for the hearing. Mr. Mintz stated the application is a request for an extension of the existing approvals. The preliminary Grant was approved several years ago. The one (1) year extension of the Grant was approved a year ago, because of the economic conditions prolonged the project. However, unforeseen circumstances dealing with the different Federal/State Agencies with regulation changes has forced continued delay of the project. Thus, the appearance in front of the board today is warranted in order to seek another one (1) year extension.
Mr. Mintz reiterated that it is a preliminary extension request for Block: 10899 Lot:1-3
He requests that the Board consider the request.

Vice Chairman Costa asked if there were any questions from the Public?
None
Vice Chairman Costa asked any questions from the Board?
None
Vice Chairman Costa asked for a motion to approve the Application.
Councilman Hutchison made a motion seconded by Mr. Reagan.
