APPLICATIONS FOR REVIEW

#182027C
Brian Long
Zoned: R4
Bulk C Variance
Block: 2202 Lot: 4
Location: 220 Wilson (4th) Ave., Glendora
6' vinyl fence & garage 22.5' x 8' & 2nd floor addition 23.7' x 30.6' w/ setbacks.

Mr. Costa swears in Mr. Brian Long.
Mr. Long states they are going to bring the garage up even with the house and the garage will be 15'x 22.5'.
Chairman McMullin what is in the backyard now.
Mr. Long states he wants to clear out the yard for kids and put in a pool.
Chairman McMullin asks what will happen with the shed.
Mr. Long states the shed will go back to where it was in the backyard.
Mr. Mellett states the 6' across the back of the yard for privacy and the 3.5' fence around the corner lot won't create any site implications.
Mr. Treger asks about the current fencing.
Mr. Long states the existing fence is a construction fence and the new fence will be built on the inside of the new retaining wall. The fence will be 2.5' from the sidewalk and 4.5' from the property line.
Mr. Lechner states the previous fence variance was 10' from the property line along Wilson Ave.
Mr. Long states the fence will be 6' along the back of the house.
Mr. Lechner states the retaining wall is on his property then the fence will be on his property.
Public Portion:

Ms. Diane List; 207 3rd Ave. (diagonal from Mr. Long). She is concerned because the neighbor to the left had built a structure that is bigger than his house. This structure has blocked a large part of her view and she is concerned this new garage will do the same. Ms. List states there was no notice when the previous neighbor built his large structure and it was up in 2 or 3 days. Ms. List states she called the Zoning office but was told it was permitted. She would like to make sure this garage is not going to be larger than his house because then she will be boxed in. Ms. List states she spoke with the Mayor about these massive structures that are being built.

Mr. Long states his garage already exists and is 13' high. Ms. List states: "That's fine".

Mr. Lechner states the neighbor with the large structure complied to all zoning laws at the time; thus, no notice was necessary. A 20' building was permitted at the time of his construction. Since then the zoning ordinance has been changed and you can't build anything that has a side wall higher then 9' and 14' to the ridge line. Ms. List can't understand how that could be allowed (20' high structure). He uses a lift in that structure all night.

Mr. Lechner states you can call the zoning office and file a complaint.

Mr. Costa states if he is using it for commercial use that is not permitted.

Mr. Lechner asks for the exact address so he can tell the zoning officer to look into the issue: 227 3rd Ave.

Mr. Lechner asks how high the side walls are on the garage. Mr. Long states they are 8'.

A motion to approve the above-mentioned application was made by Mr. Rosati and seconded by Mr. Scarduzio.

Roll Call:

    Mr. Scarduzio       Yes
Mr. Rosati     Yes
Mr. Acevedo    Yes
Mr. Treger     Yes
Chairman McMullin  Yes

Application Approved.

Mr. Riley, Esq. would like to request to table application #182030CDSPW to the next ZB meeting on 9-12-2018.

Mr. Costa states there is no re-notice necessary this is your notice.

A motion to approve the above-mentioned tabling of application #182030CDSPW to 9-12-2018 was made by Mr. Rosati and seconded by Mr. Acevedo.

Roll Call:

Mr. Scarduzio     Yes
Mr. Rosati        Yes
Mr. Acevedo       Yes
Mr. Treger        Yes
Chairman McMullin  Yes

#182026C
P & R Properties & Design, LLC
Zoned: R3
Bulk C Variance
Block: 6602 Lot: 14
Location: 11 E. Batten Ave., Blackwood
Porch, roof 19.5' x 8' & 2nd floor addition 23.7' x 30.6' w/setbacks

Mr. Costa swears in: Mr. Steven Pitman.
Mr. David Thatcher (Esq.) explains the application:
This is an existing single-family home that P & R wants to renovate and rebuild the front porch. The porch will be 9.6' from the roadway. The current ordnance requires 30'. The
whole house is in the 30’ setback limit. They just want to re-build the porch and make the structure sound again, this is a pre-existing non-conforming use.

Mr. Costa asks what will be on the second floor.
Mr. Pitman states the home will go from a 3 bdrm. 1 bath to a 4 bdrm. 2 bath home.
Mr. Costa asks if there will be any apartments in the new structure.
Mr. Pitman states “no, it will remain a single-family home.”
A1- photos of the property and the side entrance.
Mr. Pitman discusses the dormer with the window.
A2- front of house and porch
A3- straight on picture of front of the house at street level.
Mr. Pitman state currently the front porch is not structurally sound.
They will be adding craftsman columns and steps on the driveway side.
Mr. Lechner if they are building an attached garage.
Mr. Pitman states “yes”, it will be attached to the left side of the house in line with the concrete stairs.
Mr. Lechner states the attached garage isn’t on the survey and it should be 42’ from the rear property line and 30’ from the side property line.
Mr. Pitman states the garage will be 3’ to 4’ from the back of the house and will comply with the setbacks.
Mr. Mellett asks if they will be using the existing driveway and the existing curb cut.
Mr. Pitman states there will be no curb just pavement to the street with an added apron.
Mr. Mellett discusses the drainage to the street,
Mr. Pitman states it will drain to the street,

Public Portion:

Mr. Al Thompson (24 Brewer):
He has been there for 25 years and that house has been abandoned for 15 years. He just wanted to make sure they are going to clean it up.
Mr. Pitman states once everything is approved everything will be cleaned up.

Ms. Diane Cheeseman (1305 OBHP)
Ms. Cheeseman owns the accounting firm on the corner and has made calls about the grass being high. She has been cutting the grass herself. She also wants to make sure the property is going to be maintained. Ms. Cheeseman is worried the garage will be too close to her property.
Mr. Lechner states the garage is 26' wide and there is 55' between you, which leaves 29' between the garage and her property.
Mr. Pitman states he has landscapers and they are supposed to be cutting the grass every 2 weeks.
Mr. McMullin states the applicant does seem to be trying to keep the property maintained while the work is being planned.
Ms. Cheeseman states she has been staring at the garbage and grass for too long.

A motion to approve the above-mentioned application was made by Mr. Rosati and seconded by Mr. Acevedo.

Bulk “C” Variance, Use “D” Variance & Site Plan Waiver
Block 13102, Lots 18, 19.01, 19.02 & 20
1271 Little Gloucester Road, Clementon
Gloucester Township, Camden County
Gloucester Application #182030CDSPW
Our File No.: GX18004-ME

Dear Mr. Lechner:

We have received the following information for the referenced project:

A. A copy of a Township of Gloucester Zoning Board Transmittal dated July 2, 2018;

B. A copy of a Township of Gloucester Land Development Application for Bulk “C” Variance, Use “D” Variance and Site Plan Waiver;

C. A copy of “Plan of Survey” Block 13102, Lots 18, 19.01, 19.02 & 20 prepared by Consulting Engineer services dated December 18, 2017;

D. A copy of “Use Variance Plan” Block 13102, Lots 18, 19.01, 19.02 & 20 prepared by Consulting Engineer services dated June 6, 2018;

We have reviewed the application and offer the following comments:

I. Project Description

1. The project site fronts on the westerly side of Chews Landing-Gloucester Road (C.R. 759), north of Mechanicsville-Erial Road-Brooklyn Road (C.R. 706).
2. The property contains a one-story masonry industrial type building, parking lot and other associated site improvements.

3. The site is identified as Block 13102, Lots 18, 19.01, 19.02 & 20, and is approximately 8.585 acres as indicated on the Plan of Survey.

4. The tract has approximately 775.75 feet of frontage along Chews landing – Gloucester Road.

5. It appears that the site is currently being occupied by “Pump It Up” youth recreation, “Auto Parts International” retail auto parts & “Aqua Treat” water treatment.

6. The applicant is proposing a plastic extrusion operation, TLC Products, which would occupy the balance of the building.

7. The applicant is proposing parking lot striping to create additional parking.

II. Bulk and Use Variance

1. The property is located within the Neighborhood Commercial (NC) Zoning District.

2. The purpose of the NC - Neighborhood Commercial district is to provide for the development of neighborhood shopping centers, individual retail uses and office facilities which provide for personal services primarily to nearby neighborhoods.

3. An Industrial business with a use specific to TLC Products plastic extrusion is not listed as a permitted principal or conditional use in the zone. The applicant is therefore seeking a use variance.

4. The applicant should indicate what other business will continue to operate at the site.

5. The applicant should describe typical operations for the proposed business and any potential effects, e.g., noise, smell, traffic, etc.

6. The applicant should discuss any material storage, loading or large deliveries typically associated with this type of operation.

7. The applicant should demonstrate special reasons in accordance with Municipal Land Use Law Section 40:55D-70 in order for the Board to consider the Use Variance.

8. The applicant must demonstrate that the variance relief can be granted without substantial detriment to the public good and would not substantially impair the
intent and purpose of the Zone Plan and the Zoning Ordinance of Gloucester Township.

9. Bulk variances for existing site improvements are indicated on the application. We defer review of conformance with the area, yard and bulk requirements of the Ordinance to your office.

III. Site Plan Waiver

1. The applicant is requesting a Site Plan Waiver along with the associated submission requirements for this project. The Board may wish to consider the waiver; however the following items should be addressed:

a. The existing sidewalk along the frontage of the site is in poor condition. Additionally, there are no handicap accessible ramps at the driveways.

b. The existing parking area and striping is in poor condition.

c. There are currently three access driveways onto Chews Landing-Gloucester Road that don’t appear to meet the requirements of Section 510.K of the Land Use Ordinance.

d. It appears that the existing trees on site need to be trimmed to accommodate pedestrian and vehicle movements.

e. The applicant should address noise, dust or any other potential nuisances associated with the proposed use.

f. The applicant should address existing/proposed signage.

g. The applicant should address on site storage, loading/truck movements associated with the proposed use.

h. The applicant should address existing and any proposed lighting.

2. The applicant should address the parking adequacy of the site. The applicant indicates that there will be a total of 119 parking provided where 137 spaces are required. The adequacy of the proposed parking should be addressed.

3. The applicant is proposing some additional parking lot striping and curb relocation to accommodate a proposed monuments sign. Details associated with this development are not included on the plans.

4. We defer review of the handicap accessible parking spaces and the barrier free access to the Construction Official.
5. The subject site occupies four existing lots (Lots 18, 19.01, 19.02 & 20). We would recommend that an all-inclusive deed be filed for the site.

Based on the above comments regarding site conditions, parking, vehicle & truck circulation, loading, etc. the Board may wish to consider the requirement for the submittal of a Site Plan application.

Any Zoning Board approval shall be contingent upon approval from all other governmental agencies having jurisdiction including but not limited to the New Jersey Department of Transportation, Gloucester Township Municipal Utilities Authority, Camden County Conservation District, Aqua New Jersey, Inc./New Jersey American Water, etc.

Please contact me if you have any questions or require additional information.

Very truly yours,
Churchill Consulting Engineers

Variance required.

Variance Expiration: The applicant is advised that variances will expire unless construction commences within two (2) years of the date of the granting of the variance.

### III. APPLICATION SUBMISSION CHECKLIST

The application has been reviewed for completeness in accordance with the Township of Gloucester Land Development Ordinance §817, Submission Checklist for Variance requirements.

The Applicant must provide the following omitted checklist items or request a waiver:

1. **Floor plans where multiple or more than one use is proposed that have different parking standards** [Checklist #42].

2. **Proposed signs including the location, size, height and scaled elevations of the front, side, and rear of any side directed or modified including sign lighting details** [Checklist #44].

### IV. VARIANCE COMMENTS

The Application as submitted requires the following variance from the NC - Neighborhood-Commercial District:

§415.B, Permitted Uses

1. A “plastic extrusion operation” and “balance of the building may be uses for operation or other permitted uses, may rent space in the future” is not a listed permitted use in the NC – Neighborhood Commercial District.

   a. Uses determined as not “inherently beneficial.”

      i. A use variance must meet the statutory “special reasons” standards; the zoning purpose most amplifying the meaning of special reasons is, the promotion of the general welfare (basis Medici v. BPR Co., 107 N.J. 1 (1987)).

         1. The Applicant must identify and provide an analysis of the special reasons of zoning that is applicable to the application.

         2. The Applicant must provide testimony addressing the “enhanced quality of proof and clear specific findings” that the variance sought is not inconsistent with the Master Plan and Zoning ordinance.

         3. Furthermore, “such proofs and findings must satisfactorily reconcile the grant of the use variance with the ordinance’s continued omission of the proposed use from those permitted in the zone.”
NEGATIVE CRITERIA
The Board should not grant a variance unless it is clearly demonstrated that said variance can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the zone plan and zoning ordinance (basis 40:55D-70).
Balancing Test (basis Sica v. Board of Adjustment Tp. of Wall, 127 NJ 152, 162 – 166 (1992)).
1. Identify the public interest at stake.
2. Identify the detrimental effects that would result by the grant of a variance.
3. Determine if the detrimental effects may be mitigated by imposing reasonable conditions.
4. Weigh the benefits against the mitigated negative effects to determine if on balance the grant of a variance would cause substantial detriment to the public good.

V. ZONING HISTORY AND MASTER PLAN CLASSIFICATION
The Township’s records indicate the following Land Development Applications applicable to the subject property:

13. The following is a description of the Small Scale Business (B-2) Land Use Classification with the Master Plan, adopted June 29, 1999.

"In contrast to the B-1 category, this land use would be a purely commercial district including both retail and office uses. It is intended for small neighborhood shopping centers, stand alone uses such as pharmacies and convenience stores, individual office buildings, gasoline service stations in appropriate locations and similar commercial uses. A floor area ratio of 0.15 and 0.20 is proposed."

IV. GENERAL REVIEW COMMENTS AND SPECIAL CONCERNS

The Applicant must address the positive criteria including special reasons, standards of zoning, and the negative criteria applicable to the required variance for the following master plan and zoning issues.

1. Master Plan
   a. Consistency of the proposed use with the criteria of the B-1 Mixed Business/Residential land use classification of the master plan.

2. Zoning
   a. Consistency of the proposed use with the NC – Neighborhood Commercial District and character of the built environment.

3. Use Variance
   a. Suitability of the subject property to accommodate the following components of the proposed use:
      i. Use:
         1. The Applicant shall provide a description of the proposed use including but not limited to the following:
            a.) Hours of operation,
            b.) The number and type of vehicles to be stored and/or operated from the location,
            c.) Storage of materials,
            d.) Noise, odors, storage and waste disposal, ventilation, vibration, and other elements of §502, Performance Standards for All Uses.

         2. The Applicant shall provide testimony to address the existing uses and plans, if any, to rent additional floor space.
ii. Parking.
   1. The applicant shall address proposed parking for customers and vehicle deliveries for existing and proposed uses.

iii. Turning movements.
   1. The applicant shall address site access and turning movements of delivery vehicles.

iv. Lighting.
   1. The Applicant shall address lighting for the premises.

v. Stormwater Management.
   1. The rear yard of the subject premises is overgrown but a review of Township records indicate a drainage basin exists in the rear yard of Block 13102, Lot 19.02.
      a.) The Applicant should address the condition of the basin, existing stormwater patterns, and proposed rehabilitation of the basin, if required.

vi. The applicant should be required to record a Deed of Consolidation combining Block 13102, Lots 18, 19.01, 19.02 and 20 into one (1) lot as represented in the instant application.

4. Site Plan Waiver:
The Applicant requests a waiver from Site Plan Review as per §801.A(3). The applicable Land Development Ordinance states the following:
   a. “The approving authority may waive the requirement of site plan approval whenever it determines that the proposed development, alteration, repair, or change of use or occupancy does not affect the existing condition of the lot or premises, including: topography; vegetation; drainage; flood plains; marshes and waterways; open space; walkways, means of ingress and egress; utility services; landscaping; structures; signs; lighting and screening devices; and other considerations of site plan review …”
      i. Site plan approval is recommended.
         1. Existing site conditions impact several ordinance required performance and design standards, as follows.
            a.) Application #002110D appears to have required removal of asphalt between the front curb and building between the entrance drives for proposed landscaped island.
