RESOLUTION OF FINDINGS AND CONCLUSION

BOARD OF ADJUSTMENT

TOWNSHIP OF GLOUCESTER

APPLICATION # 192039C
George Reese
Block 11805, Lot 5

WHEREAS, George Reese is the owner of the land and premises located at 514 E. Lake Avenue in the Blackwood section of the Township of Gloucester, New Jersey having made application to the Zoning Board of Adjustment of the Township of Gloucester, Camden County, for a variance to permit lot coverage of 46% instead of the required 40% and to permit a swimming pool 8' from the side and rear property instead of the required 10' and 7'8" from the dwelling instead of the required 10' for the property located upon Block 11805, Lot 5, as shown on the Official Map of the Township of Gloucester, located in a R-3 Zone, said application being pro-se.; and

WHEREAS, the Board after carefully considering the representations made by the applicant at the public hearing held on October 9, 2019 as well as having reviewed the application and evidential exhibits at said hearing, has made the following factual findings and conclusions based thereon;

1. The applicant George Reese is the owner of the land and premises located at 514 E. Lake Avenue in the Blackwood section of Gloucester Township, New Jersey, as shown on Block 11805, Lot 5, on the Official Tax Map of the Township of Gloucester, located in an R-3 Zone.

2. Proper notice was afforded all adjacent property owners as provided by the applicable statutes and ordinances, and the applicant provided proof of said notice.
3. All property taxes were paid to date.

4. After being sworn, the applicant testified that he has a very small yard and he would still need the variances if he used a smaller pool.

5. There were no objections to the application.

UPON MOTION duly made and seconded to grant the applicant a the aforesaid bulk variances, the Board voted six (6) in favor, none (0) against and zero (0) abstentions, thus granting the relief requested; and

WHEREAS, the Board has determined that the relief requested by the applicant may be granted without substantial detriment to the public good and otherwise without impairing the intent and purpose of the Zoning Plan and Ordinances of the Township of Gloucester because of the size and shape of the lot and the Board was of the opinion that the benefits exceed any detriment; and

WHEREAS, the statutory purposes will be advanced by the granting of the relief requested;

NOW THEREFORE BE IT RESOLVED, by the Zoning Board of Adjustment of the Township of Gloucester on this 23th day of October, 2019, the applicant George Reese is hereby granted the aforesaid variances for the property located upon Block 11805, Lot 5 as shown on the Official Tax Map of the Township of Gloucester, consistent with the testimony, application and exhibits, same of which are incorporated herein.

TOWNSHIP OF GLOUCESTER

APPLICATION # 192037D
Garden State Storage LLC
Block 14701, Lots 1 & 12

WHEREAS, Garden State Storage is the contract purchaser of the land and premises located at 2530 & 2580 Sicklerville Road in the Sicklerville section of the Township of Gloucester, New Jersey having made application to the Zoning Board of Adjustment of the Township of Gloucester, Camden County, for a variance to permit a Self-Storage Facility and floor area ratio not to exceed 0.746 for the property located upon Block 14701, Lots 1 & 2, as shown on the Official Map of the Township of Gloucester, located in a HC Zone, said application being represented by John Wade Esq.; and

WHEREAS, the Board after carefully considering the representations made by the applicant at the public hearing held on October 9, 2019 as well as having reviewed the application and evidential exhibits at said hearing, has made the following factual findings and conclusions based thereon;

1. The applicant Garden State Storage is the contract purchaser of the land and premises located at 2530 & 2580 Sicklerville Road in the Sicklerville section of Gloucester Township, New Jersey, as shown on Block 14701, Lots 1 & 12, on the Official Tax Map of the Township of Gloucester, located in an HC Zone.

2. Proper notice was afforded all adjacent property owners as provided by the applicable statutes and ordinances, and the applicant provided proof of said notice.

3. All property taxes were paid to date.
4. After being sworn, the applicant produced Bruce McKenna, a Professional Engineer, who testified the applicant, is proposing to construct approximately 64,050 square feet of self-storage consisting of one (1) three story building of 53,350 sq. feet and five one story units of approximately 31,600 sq. feet and a floor area ratio of 0.746. He explained the buildings, height of the units and topography of the land. He also explained the buffering around the site, parking and there would be no outside storage. He went on to say this use is less intense than permitted uses and there is no noise or problems associated with lighting. Introduced into evidence were A-1 an Aerial, A-2 amended site plan, A-3 Architect, A-4 List of permitted uses plan with buffers and setbacks. He agreed as a condition of approval there would be no manufacturing on site, no contractor work on site, no storage of hazardous chemicals, the units would not be accessible after 11 P.M., the 3 story building would be moved to the center of the site away from the residence. They would provide a utility easement, if needed and the floor area ratio would not exceed 0.746.

Tiffany Morrissey, a Professional Planner, stated this is a much less intense use than permitted uses, such as fast food, office buildings and other uses permitted in the HC Zone. The units will be buffered and they are trying to preserve the wooded area and this use would be a nice transition from residential. She testified the site can accommodate the increased floor area ratio since there is no intensification of the use and this is a low impact project with 2 to 3 employees. She stated the purposes of Zoning would be advanced under N.J.S. 40:55D-1 sections (c), (g), (h), and (I) and there is no negative impact because this is a less intense use than those permitted.

5. There were no objections to the application only concerns that were satisfied by the applicant.
UPON MOTION duly made and seconded to grant the applicant a the aforesaid Use variances, the Board voted seven (7) in favor, none (0) against and zero (0) abstentions, thus granting the relief requested; and

WHEREAS, the Board has determined that the relief requested by the applicant may be granted without substantial detriment to the public good and otherwise without impairing the intent and purpose of the Zoning Plan and Ordinances of the Township of Gloucester because of the size and shape of the lot and the Board was of the opinion that the benefits exceed any detriment; and

WHEREAS, the statutory purposes will be advanced by the granting of the relief requested;

NOW THEREFORE BE IT RESOLVED, by the Zoning Board of Adjustment of the Township of Gloucester on this 23th day of October, 2019, the applicant Garden State Storage is hereby granted the aforesaid variances for the property located upon Block 14701, Lots 1& 2 as shown on the Official Tax Map of the Township of Gloucester, consistent with the testimony, application and exhibits, same of which are incorporated herein conditioned upon the applicant complying with the aforesaid conditions and subdivision approval.

Variance Expiration: The applicant is advised that variances will expire unless construction commences within two (2) years of the date of the granting of the variance.
II. VARIANCE COMMENTS

The application as submitted requires the following variances:

§405.F – R-3 – Residential District, Area, Yard, Height and Building Coverage

1. Front yard: (25.57 ft. provided v. 30 ft. minimum required)

POSITIVE CRITERIA ("C1" and "C2" variances)

The Applicant must address and the Zoning Board of Adjustment consider the following in satisfying the positive criteria for the requested variances:

2. The Board has the power to grant a variance where by reason of exceptional narrowness, shallowness, shape, or topographic conditions or physical features, or an extraordinary and exceptional situation affecting a specific property, the strict application of the zoning regulations would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship upon the development of such property (basis 40:55D-70c(1)).

Also, the Board has the power to grant a variance when the purpose of the Municipal Land Use Law would be advanced by the deviation of the zoning ordinance and the benefits would substantially outweigh the detriments (basis N.J.S.A. 40:55-70c(2)).

NEGATIVE CRITERIA

The Board should not grant a variance unless it is clearly demonstrated that said variance can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the zone plan and zoning ordinance (basis N.J.S.A. 40:55D-70).

III. NOTICE REQUIREMENTS

The applicant must notice for the following variance:

From Section 405.F, Area, Yard, Height and Building Coverage, to replace a deck in the front yard twenty five and fifty seven hundredths (25.57) feet from the front property line (30 ft. minimum required).

I have no further comments regarding this application at this time; however, we reserve the right to provide additional comments during the public hearing to advance the planning process.

1. Four (4) copies of the Environmental Impact Statement (See §816) [Checklist #5].
2. Four (4) copies of the Traffic Impact Report (see §815) [Checklist #7].
3. No application for development shall be considered complete until the applicant has calculated and delineated the area of wetlands based upon the methodology established by the New Jersey Department of Environmental Protection regulations (See §519) [Checklist #9].
a. The plans depict the location of freshwater wetlands and a 50-foot buffer.
4. Locations of all existing structures and their uses within 200 feet of the tract. [Checklist #34].
5. Existing and proposed lot coverage in acres of square feet and as a percentage of the lot area [Checklist #37].
6. A written description of the proposed use(s) and operation(s) of the building(s), i.e., the number of employee or users of non-residential buildings, the proposed number of shifts to be worked, the maximum number of employees on each shift, expected truck and trailer traffic emission of noise, glare, radiation, heat, odor, safety hazards, air and water pollution. [Checklist #40].

APPLICATION #192041CDMFSPa
Amy Tarves
BLOCK 7301 LOTS 3 and 8
7. Floor plans where multiple or more than one use is proposed that have different parking standards [Checklist #42].
8. Existing elevations and contour lines over the entire area of the proposed development and two (2) permanent benchmarks based upon U.S.G.S datum [Checklist #56].
9. Contours shall be shown at not more than two (2) foot intervals for areas with less than twenty (20%) percent slope, five (5) foot intervals for areas in excess of twenty (20%) slope [Checklist #57].
10. Within a distance of 200 feet of development show the names, locations and dimensions of all existing streets and existing driveways, and any connections by the development to existing streets, sidewalks, bike routes, water, sewer, or gas mains [Checklist #74].
11. Fire lanes [Checklist #77].
12. Loading areas and number thereof [Checklist #80].
13. Cross Sections. [Checklist #94].
14. Center line profiles at horizontal scale not less the 1" = 50' for all existing adjoining streets and proposed streets [Checklist #96].
15. Environmental Constraints Map (See §519). [Checklist #108].

VI. VARIANCE COMMENTS

The application as submitted requires the following variances:

§416.B, Permitted Uses
1. Self-Storage Facility is not a listed permitted use in the R3 - Residential District [§405.B, Permitted Uses].

§401.B(6), Buffer
2. Buffer: (15 ft. provided v. 25 ft. minimum required).

§416.F, Area, Yard, Height and Building Coverage
3. Building height: (not provided v. 35 ft. maximum allowed).
   a. The Applicant must provide testimony on the proposed building height to determine if a variance is required.

POSITIVE CRITERIA ("C1" and "C2" variances)

The Applicant must address and the Board consider the following in satisfying the positive criteria for the requested bulk variances:

4. The Board has the power to grant a variance where by reason of exceptional narrowness, shallowness, shape, or topographic conditions or physical features, or an extraordinary and exceptional situation affecting a specific property, the strict application of the zoning regulations would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship upon the development of such property (basis 40:55D-70c(1)).

Also, the Board has the power to grant a variance when the purpose of the Municipal Land Use Law would be advanced by the deviation of the zoning ordinance and the benefits would substantially outweigh the detriments (basis N.J.S.A. 40:55-70c(2)).
POSITIVE CRITERIA ("D1" use variance)

The Applicant must address and the Zoning Board of Adjustment consider the following in satisfying the positive criteria for the requested "D1" variance:

5. The Board has the power to grant a variance for a use or principal structure in a district restricted against such use or principal structure (basis N.J.S.A. 40:55-70d(1)).
   a. Uses determined as not "inherently beneficial."
      i. A use variance must meet the statutory "special reasons" standards. The zoning purpose most amplifying the meaning of special reasons is promotion of the general welfare (basis Medici v. BPR Co., 107 N.J. 1 (1987) and it is the most relied upon purpose to prove special reasons (Burbridge v. Mine Hill Tp. 117 N.J. 376, 386-387 (1990)).
         1. The Applicant should identify and provide an analysis of the special reasons of zoning that are applicable to the application.
         2. The Applicant should also show the site is particularly suited for the proposed use (Kohl v. Mayor and Council of Fair Lawn, 50 N.J. 268, 79-280 (1967).
         3. The Applicant should also provide specific testimony addressing the enhanced quality of proof that the variance sought is not inconsistent with the intent and purpose of the Master Plan and Zoning Ordinance (Medici v. BPR Co.).
         4. Furthermore, "such proofs and findings must satisfactorily reconcile the grant of the use variance with the ordinance's continued omission of the proposed use from those permitted in the zone" (Medici v. BPR Co.).

NEGATIVE CRITERIA

The Board should not grant a variance unless it is clearly demonstrated that said variance can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the zone plan and zoning ordinance (basis 40:55D-70).

Balancing Test (basis Sica v. Board of Adjustment Tp. of Wall, 127 NJ 152, 162 – 166 (1992)).

   1. Identify the public interest at stake.
   2. Identify the detrimental effects that would result by the grant of a variance.
   3. Determine if the detrimental effects may be mitigated by imposing reasonable conditions.
   4. Weigh the benefits against the mitigated negative effects to determine if on balance the grant of a variance would cause substantial detriment to the public good.
VII. GENERAL REVIEW COMMENTS AND SPECIAL CONCERNS

1. Master Plan
   a. The Applicant should provide testimony addressing consistency of the proposed self-storage use with the following Residential 3 (R3) Land Use Classification of the Master Plan.

   “Most of the single family residential neighborhoods in Gloucester Township are in the Residential 3 classification. It constitutes the largest land use classification of the sixteen categories of the Land Use Plan. The category is intended for single family detached residential uses at three units per acre. Generally, the Residential 3 areas have already been developed, however, small infill areas still exist where a minor number of units could be developed. Open space and small scale institutional uses not individually mapped have been placed in this land use classification.”

2. Zoning
   a. The Applicant should provide testimony addressing consistency of the proposed self-storage use with the R-3 – Residential District and character of the built environment.

3. Use Variance
   a. The Applicant should provide testimony addressing the proposed use and accessory uses, if any, including but not necessarily limited to the following:
      i. A description of the proposed self-storage building including materials, colors, textures, facade modulation, roof lines, etc.
      ii. The proposed amount of noise associated with the proposed self-storage use.
      iii. The proposed hours and days of operation.

4. Buffer
   a. The instant application proposes a buffer of 15 feet, where 25 feet is the minimum required.
      i. The applicant should provide testimony addressing the inability to provide a project that would comply with the minimum buffer requirement.
VIII. LAND DEVELOPMENT ORDINANCE COMMENTS

The Applicant is advised of the following additional requirements of the Land Development Ordinance:

1. A soil removal plan if soil is to be removed from the site for use or sale other than the premises subject to this application as per §801.C, Soil Removal.

2. A grading plan prepared and sealed by licensed professional engineer as per §814, Grading Approval.

3. Affordable housing requirement as per §902, Affordable Housing Fees and Procedures.

4. Before recording final subdivision plats or as condition of final site plan approval or as a condition to the issuance of a zoning permit pursuant to N.J.S.A. 40:50D-65d the furnishing of a performance guarantee, maintenance guarantee, and inspection fees as per §903, Guarantees and Inspections and §904, Certification or Guarantee Required: Estimate of Guarantee.

5. Requirements precedent to construction as per §905, Pre-conditions to Commencement of Construction.

6. Construction of off-tract improvements as per §906, Off-Tract Improvements Recapture.

7. A zoning permit is required prior to the issuance of any construction permits and prior to the issuance of a Certificate of Occupancy by the Construction Official the Applicant must acquire a Certificate of Zoning Conformity from the Zoning Officer as per §1102, Permits, General, §1103, Zoning Permit and §1104, Certificate of Zoning Conformity.

IX. FINAL PROCEDURES

Following approval from the Board professionals the Applicant is required to complete the following requirements prior to signature of the plans.

1. Provide twelve (12) Final Major Site Plans for signatures.

3. Provide legal descriptions and deeds for signatures.

4. Payment of any outstanding escrow fees and sufficient fees to cover anticipated and/or pending invoices for professional services, if applicable.

   a. The escrow has an existing surplus of $6,614.50.

The Applicant is advised the following requirements are prior approvals to submitting an application for construction permits.

5. Provide an application and zoning permit approval.

6. Provide a cost estimate for site improvements to be reviewed and approved by the Township Engineer.

7. Provide a performance guarantee in the amount determined by the Township Engineer, if applicable.

8. Provide an inspection escrow in the amount determined by the Township Engineer.

9. Payment of any outstanding escrow fees and sufficient fees to cover anticipated and/or pending invoices for professional services, if applicable.
X. **RECOMMENDATIONS**

1. The Applicant should address the above underlined comments.

I have no further comments regarding this application at this time; however, reserve the right to provide additional comments during the public hearing to advance the planning process.

**Variance Expiration:** The applicant is advised that variances will expire unless construction commences within two (2) years of the date of the granting of the variance.

### III. APPLICATION SUBMISSION CHECKLIST

The Application has been reviewed in accordance with §817, Submission Checklist for a variance.

The Applicant shall provide the following checklist items or request a waiver:

1. Existing signs including the location, size, and height [Checklist #43].
2. Proposed signs including the location, size, height and scaled elevations of the front, side, and rear of any side directed or modified including sign lighting details [Checklist #44].
3. Acceleration/deceleration lanes. [Checklist #75].
4. Traffic channelization [Checklist #76].
5. Fire lanes [Checklist #77].
6. Directional signs with scaled drawings [Checklist #85].
7. Center line profiles at horizontal scale not less than 1" = 50' for all existing adjoining streets and proposed streets [Checklist #96].

### IV. WAIVER REVIEW COMMENTS

The Applicant requests a waiver from providing the following required checklist items.

1. Four (4) copies of the Environmental Impact Statement (See §816) [Checklist #5].
   a. The Applicant should provide professional testimony to support this waiver request.
2. Four (4) copies of the Traffic Impact Report (see §815) [Checklist #7].
   a. The Applicant should provide professional testimony to support this waiver request.

APPLICATION #182056CD
Empire Investments Enterprise, LLC
BLOCK 10902, LOT 12
3. No application for development shall be considered complete until the applicant has calculated and delineated the area of wetlands based upon the methodology established by the New Jersey Department of Environmental Protection regulations (See §519) [Checklist #9].
   a. Site Data #10 references NJDEP Mapping and "visual observations" Consulting Engineer Services certifies wetlands are not present on site.

4. Four (4) copies of any additional reports. [Checklist #10].

5. Sidewalks and bike routes [Checklist #83].
   a. It's recommended the plans be revised to provide concrete curb and sidewalks along the frontage of Coles Road as per §516, sidewalks, curbs, Gutters & Pedestrian Ways.

The instant Application requests a waiver from having to provide the following Performance and Design Standards.

6. To provide 1.5" – 1.75" caliper for the proposed Bradford Pear and Sugar maple shade trees where 2.5" caliper is the minimum required as per §507.A(2)(b)(2), Materials.
   a. The site plan proposes only five (5) shade trees and it's recommend the caliper should not be reduced less than 2".

7. To provide a 12' x 28' loading area where 12' x 60' is the minimum size required as per §508.A. Dimensions.

8. To provide parking spaces 10' from a residential zone and residential use where 25' is the minimum required as per §510.F(5), Location of parking spaces.
   a. The Board should note a variance was approved to allow a 10-foot buffer as per Zoning Board of Adjustment Resolution #182056CD adopted May 08, 2019.

V. VARIANCE COMMENTS

The application as submitted requires the following variance.

1. Buffer: (4.4 ft. provided v. 10 ft. minimum required).
   a. The proposed drainage basin retaining wall and headwall encroach within the previously approved 10-foot buffer.
      i. "No structure, stormwater management facility, activity, storage of materials or parking of vehicles shall be permitted within a buffer area" [§507.B(4), Buffering].

POSITIVE CRITERIA ("C1" and "C2" variances)

The Applicant must address and the Board consider the following in satisfying the positive criteria for the requested bulk variances:

2. The Board has the power to grant a variance where by reason of exceptional narrowness, shallowness, shape, or topographic conditions or physical features, or an extraordinary and exceptional situation affecting a specific property, the strict application of the zoning regulations would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship upon the development of such property (basis 40:55D-70c(1)).
   Also, the Board has the power to grant a variance when the purpose of the Municipal Land Use Law would be advanced by the deviation of the zoning ordinance and the benefits would substantially outweigh the detriments (basis N.J.S.A. 40:55-70c(2).
NEGATIVE CRITERIA

The Board should not grant a variance unless it is clearly demonstrated that said variance can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the zone plan and zoning ordinance (basis 40:55D-70).

The following variances are approved by Zoning Board of Adjustment Resolution #182056CD adopted May 08, 2019.

§404.B, Permitted Uses
3. “2 commercial buildings for administrative offices and flex space and office use,” which are not listed permitted uses in R-2 – Residential District [§404.B, Permitted Uses].

§404.F, Area, Yard, Height and Building Coverage
4. Lot size: (0.90 ac. provided v. 3 ac. minimum required).
5. Lot frontage: (99.59 ft. provided v. 200 ft. minimum required).
6. Building coverage: (16% provided v. 5% maximum allowed).
7. Lot coverage: (53% provided v. 15% maximum allowed).
8. Front yard: (23 ft. provided v. 100 ft. minimum required).
9. Side yard: (20 ft. provided v. 30 ft. minimum required).
10. Side yard: (10 ft. provided v. 30 ft. minimum required).
11. Buffer: (10 ft. provided v. 25 ft. minimum required).

VI. SITE PLAN REVIEW COMMENTS
1. The plans should be revised to provide a permanent benchmark as per §503.C(3), Monuments.
2. The plans should be revised to provide additional intermittent evergreen landscaping along the easterly and southerly sides of the Stormwater Management Facility Basin to enhance the aesthetics of the project and the Township as per §507.A, Landscaping.
   a. The purpose of this recommendation is to provide partial buffering of the drainage area from residential properties.
3. The plans should be revised to provide a permanent 10-foot wide buffer easement along the easterly property as per §503.D, Easements/Restricted Covenants.
   a. The purpose of this recommendation is to ensure perpetual compliance with §507.B, Buffering.
4. The plans should be revised to provide a Landscape Note that all landscaping and lawn areas would have underground irrigation as per §507.A(4)(b), General Landscaping Provisions.
5. Consideration should be given to revise the gate location for the proposed trash enclosure as per §510.L, Refuse/Recyclable Storage Areas.
   a. It's suggested the gate opening towards rear may be awkward for trash removal vehicles to access the dumpsters.
6. The plans should be revised to provide vertical screening slats with top and bottom locking channels for the proposed chain link gate for the trash enclosure as per §510.L(3), Refuse/Recyclable Storage Areas.
7. The plans should be revised to provide curb and sidewalk along the entire frontage of Coles Road as per §516, sidewalks, Curbs, Gutters & Pedestrian Ways.

VII. LAND DEVELOPMENT ORDINANCE COMMENTS

The Applicant is advised of the following additional requirements of the Land Development Ordinance:

1. A soil removal plan if soil is to be removed from the site for use or sale other than the premises subject to this application as per §801.C, Soil Removal.

2. A grading plan prepared and sealed by licensed professional engineer as per §814, Grading Approval.

3. Affordable housing requirement as per §902, Affordable Housing Fees and Procedures.

4. Before recording final subdivision plats or as condition of final site plan approval or as a condition to the issuance of a zoning permit pursuant to N.J.S.A. 40:50D-65d the furnishing of a performance guarantee, maintenance guarantee, and inspection fees as per §903, Guarantees and Inspections and §904, Certification or Guarantee Required; Estimate of Guarantee.

5. Requirements precedent to construction as per §905, Pre-conditions to Commencement of Construction.

6. Construction of off-tract improvements as per §906, Off-Tract Improvements Recapture.

7. A zoning permit is required prior to the issuance of any construction permits and prior to the issuance of a Certificate of Occupancy by the Construction Official the Applicant must acquire a Certificate of Zoning Conformity from the Zoning Officer as per §1102, Permits, General, §1103, Zoning Permit and §1104, Certificate of Zoning Conformity.

VIII. RECOMMENDATIONS

1. The Applicant should address the above underlined comments.

I have no further comments regarding this application at this time; however, reserve the right to provide additional comments during the public hearing to advance the planning process.

1 SITE DESCRIPTION

Consulting Engineer Services (CES) has prepared this Project Narrative for the 44 Coles Road development, a proposed commercial development located on Plate 109, Block 10902, Lot 12 on the official Tax Map of the Township of Gloucester, Camden County, New Jersey (hereinafter the “Site”). The approximate 0.94 acre site consists of one (1) lot and is located within the Township’s R-2 Residential Zone. The proposed Site has frontage along Coles Road.

2 EXISTING CONDITIONS

The site is currently undeveloped land identified by the Township for economic development. No wetlands are present on the site. Surrounding land use consists primarily of residential uses to the west and south; and commercial uses as well as the Atlantic City Expressway to the east.

3 PROPOSED DEVELOPMENT

Major Site plan approval is being sought by Empire Investment Enterprises, LLC to develop the Site into a commercial use with 2 proposed buildings. The proposed improvements will total 6,000 square feet. One building will be approximately 3,500 square feet and permit use by up to 6 different tenants; the second building will be approximately 2,500 square feet and be used by 1 tenant.

The developed Site will have direct access to Coles Road. Parking, sidewalks, and associated lighting and landscaping will be provided within the Site. Proposed layout of the site is in general accord with the use variance plan approved by the Gloucester Township Zoning Board.

Stormwater runoff generated from the proposed improvements will be conveyed via overland flow and underground stormwater piping to proposed stormwater management basin. The proposed stormwater conveyance and management facilities will be in conformance with Township requirements.
4 SITE OPERATION

The operations will be consistent with other similar commercial uses and hours of operations and shall comply with Township working hour requirements.

The facility is proposed to be utilized for general commercial use, with the exact end user to be determined. Flexible office/warehousing operations are anticipating, but no use is proposed that will generate smoke, odors, noises, or other nuisance conditions. All storage shall occur indoors.

Each use shall have building access via a man door and garage door.

Off-street parking for the Site is provided to accommodate a variety of general commercial uses with consideration for vehicles used by customers, employees, and other Site visitors.

The proposed facility is anticipated to receive deliveries by single container box truck (such as a UPS delivery truck). The deliveries are anticipated to occur as required and will generally occur during normal business hours. Off-street loading space is provided to accommodate deliveries.

Trash pickup will be provided by a private company and will occur once weekly. A trash/recyclable enclosure for waste disposal is proposed at the side of the building.

1 INTRODUCTION

Consulting Engineer Services (CES) has prepared this Recycling Report for the 44 Coles Road development, a proposed commercial development located on Plate 109, Block 10902, Lot 12 on the official Tax Map of the Township of Gloucester, Camden County, New Jersey (hereinafter the “Site”). The approximate 0.94 acre site consists of one (1) lot and is located within the Township’s R-2 Residential Zone. The proposed improvements will total 6,000 square feet split between two (2) buildings. One building will be approximately 3,500 square feet and permit use by up to 6 different tenants; the second building will be approximately 2,500 square feet and be used by 1 tenant.

2 MATERIALS TO BE COLLECTED AND FREQUENCY

A. General Consumer Recyclables

The anticipated recyclables include the following:

<table>
<thead>
<tr>
<th>Materials</th>
<th>Pick-Up Frequency</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cardboard/Paper</td>
<td>Once Weekly</td>
</tr>
<tr>
<td>Plastic</td>
<td>Once Weekly</td>
</tr>
<tr>
<td>Aluminum</td>
<td>Once Weekly</td>
</tr>
<tr>
<td>Glass</td>
<td>Once Weekly</td>
</tr>
</tbody>
</table>

Recyclables will be collected and stored in suitable containers located in the trash/recycling enclosure.

B. General Refuse

General refuse will be collected and stored in an eight (8) cubic yard dumpster located in the trash/recycling enclosure. General refuse will collected once weekly.

3 LOCATION OF MATERIALS TO BE STORED

All general consumer recyclable materials collected by the owner will first be separated from the other trash. The recyclable material will then be stored within the trash/recycling enclosure
located between the two proposed buildings. The general consumer recyclables will remain in
the trash/recycling enclosure area until they are due for pick up.

4 RESPONSIBLE WASTE HAULER

The owner of the project will have ultimate responsibility for pick up and disposal of all trash
and recyclable materials. All trash and recyclable materials will be disposed of by appropriately
licensed waste haulers.

5 QUANTITY OF MATERIALS TO BE GENERATED AND REQUIRED STORAGE

It is anticipated that:

- Approximately 8 cubic yards of general trash will be generated once each week. A
  minimum 8 cubic yard trash dumpster will be provided in the trash/recycling enclosure
  located between the two buildings.

- Approximately 4 cubic yards of cardboard/paper, plastic, aluminum and glass will be
  generated each week. A minimum 4 cubic yard recyclables dumpster will be provided in
  the trash/recycling enclosure located between the two buildings.
