Chairman Owens introduces the Application for Review.

Mr. DelDuca approached the podium and introduces himself as an Attorney with DelDuca- Lewis who is here representing the applicant Republic Bank. He introduced others in his team, Miss Sharon Hamill – Republic Bank, Rich Canderian – Structural Engineer, Nick Aiello – Traffic Engineer, who would be testifying later. Mr. Del Luca proceeded with his testimony by providing an over view of the intent of the application and how they would like to transform the property so to speed things up with the testimony in the review process.

Mr. Del Luca mentioned that Republic Bank has been around in the Philadelphia area for quite some time but is in the midst of a significant growth program and would be very pleased to be in Gloucester Township. He mentioned the current property is under contract to purchase with the contingency of getting approvals that satisfies the Bank.

Mr. Del Luca proceeded to show colored renderings of a similar property completely developed will look like once the property is completely developed with the Mr. Del Luca stated that they are there to night to receive preliminary and final approvals.

No variances are needed because the bank is in a permitted use HC zone. However, the variance relief to be obtained would be for the free standing signage than current allowed ordinance.

Mr. Del Luca stated that they received comments and suggestions in the Bach letter and a review letter from Mr. Lechner. He stated they have no comments from the Back letter and they will follow the recommendations suggested. However, Mr. Lechner’s letter asked for clarification on a few things and a few comments needed to be addressed. Mr. Del Luca addressed Mr. Lechner’s comments about Gloucester
Twp. signage branding component. Mr. Del Luca agreed that something could be worked out but communication with Corporate Office was needed first.

Mr. Del Luca opened discussion about street lighting, additional shrubbery plantings and tall oak trees which was recommended by Mr. Lechner in his letter.

Mr. Del Luca discussed how the property would be dismantled as a former gas station and property cleaned in order for it to be purchased by Republic.

Mr. Kenderian a Licensed Professional Engineer from Maser Consulting approached the podium and was sworn in as a professional. He briefly discussed his qualifications as such.

Mr. Kenderian proceeded to give an overview of the site plan. He stated that it was Block: 13302 – Lot: 1 & 2 classified South East Leg of the Black Horse Pike Road in a highly commercialized district of 1.8 acres in a trapezoidal shape in a north to south direction...

He proceeded to describe the property having an existing shell gas station.

The proposal would include a single story 3500 sq. ft retail dwelling. He continued to describe the drive-thru with its vehicle capacity, access in/out of the property, the landscaping w/ additional buffering of shrubbery, the connection of city utilities, management of water runoff, building and parking lot illumination and the lobby wall mural. He further discussed the signage would be the only ordinance needing a variance and why it would need such.

Mr. Kenderian stated a waiver is requested for the loading area and trash enclosure. The reason being deliveries for banks small as they are use front door entrances and there is no trash enclosure needed due to the shredding of documents that are recycled, so there is no trash.

Mr. Kenderian stated that there is not enough area for the plantings of trees and that the existing trees will be removed cause root damage will occur during excavation of the site.

After Mr. Kenderian completed his testimony and it was agreed that the information seeking was satisfied, Mr. Lechner wanted clarity on the traffic and patterns that would occur discussed in his sent letter in section 8 – Traffic routes.

Mr. Aiello a traffic Engineer approached the podium, was sworn in as a professional and briefly discussed his credentials. He then proceeded to supply statistics to satisfy the questions about traffic patterns created including pedestrian movement.
Chairman Owens asked if there were any questions or comments from the Board. None replied.

Chairman Owens asked if there were any questions or comments from the Board Professionals. Mr. Lechner stated I short that this right of way area was developed many years ago and that the township is looking to change its image and that’s why the township

Chairman Owens asked if there were any questions or comments from the Public. None replied

Chairman Owens requested a motion to approve the application for preliminary and bulk variance approval.

Councilman Hutchison made the motion seconded by Mrs. Costa.

Chairman Owens apologized for not contacting the Administration about the time change for this meeting. A brief discussion ensued amongst board members about the meeting time and meeting notification by Phone call or email.

Chairman Owens requested a motion to adjourn. Motion to adjourn was made by Mrs. Washington seconded by Mr. Dintino.

**Meeting Adjourned.**

Recording Secretary,

Christopher Nowak
A RESOLUTION OF THE GLOUCESTER TOWNSHIP PLANNING
BOARD MEMORIALIZING PRELIMINARY AND FINAL MAJOR SITE PLAN
APPROVAL WITH BULK VARIANCES FOR
REPUBLIC FIRST BANK D/B/A REPUBLIC BANK
APPLICATION NO: 161037CPFS

WHEREAS, on July 14, 2016 consideration was given to the application of
Republic First Bank d/b/a Republic Bank (hereinafter “the Applicant”) for the property located at
Block 13302, Lots 1 & 2 (hereinafter “the Property”) for Preliminary and Final Major Site Plan
Approval with Bulk Variances for the construction of a 3,552 square foot bank with four drive-
through lanes; and

WHEREAS, the Applicant has contracted to purchase the property, contingent
upon receipt of the approvals granted herein and upon completion of remediation efforts at the
site; and

WHEREAS, Damien DelDuca, Esquire appeared on behalf of the Applicant, and
summarized the application to the Board; and

WHEREAS, the Applicant plans to purchase the existing property, on which a
gas station and car wash is currently operating. The current station operator, Bronson Oil, as well
as the prior property owner, Motiva, have executed agreements with each other and/or with the
Applicant to close the operation and perform all necessary remediation, underground storage
tank (UST) removal, and any other necessary work in order to ensure the site complies with all
environmental requirements prior to beginning construction of the bank; and

WHEREAS, Mr. Richard Kenderian, P.E., P.P., was sworn and qualified as an
expert in the field of engineering. Mr. Kenderian described the site plan, and referenced exhibits
A-1 (color rendering of the site plan), A-3 (color rendering of the proposed sign package), A-5
(color photo depicting exterior front of existing, similar bank), and A-6 (color photo depicting
exterior rear drive-through of existing, similar bank) to assist with describing the proposed plan;
and

WHEREAS, the Applicant highlighted that the proposed site plan is compliant
with the Township’s requirements, except for the proposed signage which is consistent with the
Applicant’s standard sign designs and placement. The Applicant addressed each requested
variance and waiver request as outlined within the Application, clarified certain measurements as
detailed within the application, and testified as to how the requests satisfied the positive and
negative criteria applicable to the requested bulk variance relief; and

WHEREAS, Mr. Nicholas Aiello, P.E., PTOE, PTP, the Applicant’s Traffic
Engineer, was sworn and testified as to the impact the proposed plan would have on traffic,
sidewalks, and pedestrian mobility. Mr. Aiello addressed the comments in the letter of Board Planner Kenneth D. Lechner, PP, AICP, and indicated that the bank generates very little traffic; and

WHEREAS, the Applicant addressed the conditions and comments written within the review letters of Board Planner Kenneth D. Lechner, PP, AICP, and Board Engineer Steven M. Bach, P.E., RA, PP, CME. The Applicant agreed to all comments in Mr. Bach’s letter, and with respect to Mr. Lechner’s letter, noted that they will work with the Township in developing an “at Gloucester Township” component of their signage package. The Applicant had no objections to adding street lights as requested, which will be coordinated between the Township and the Applicant’s engineer. Finally, the Applicant had no objection to adding additional landscaping and plants to screen the drainage basin, which will be coordinated with Mr. Lechner; and

WHEREAS, the Planning Board having received reports from professionals and other advisors to the Board including, without limitation, the Zoning Officer, Board Engineer, Board Planner, County Planning Board, Traffic Commander, Fire Marshall, Tax Assessor, Water Department and Municipal Utilities Authorities having heard testimony from the Board Planner and Board Engineer makes the following factual findings in approving the subject application for preliminary and final major site plan approval:

1. Existing Zoning: Highway Commercial District [HC].

2. Intended Use: Bank with four (4) drive-through lanes.

3. The application implicates the following provisions of the ordinance:

   a. §416.B(5) – Highway Commercial
   b. §426, §513 Signage

HC –Highway Commercial District – § 416.B(5):

1. Financial Services including a drive-thru is a permitted use [§416.B(5)]

7. The Board Engineer issued a report dated July 7, 2016 indicating the need for several revisions, clarifications, and/or modifications to the plan to which the Applicant agreed as a condition of approval.

**NOW, THEREFORE BE IT RESOLVED,** after considering the foregoing facts the Board concludes that the application of Paramount at Chews Landing, LLC for Preliminary and Final Major Site Plan approval with Bulk Variances has substantial merit and should be approved subject, however, to the following conditions:
A. The Plan will be revised to depict sight triangles as applicable.

B. An “at Gloucester Township” component of the signage in and/or outside of the building on the property will be incorporated, in coordination with the Board Planner.

C. The Applicant’s Engineer will coordinate with the Board Planner and Engineer regarding the provision of street lights in a manner consistent with the Blackwood Clementon Redevelopment area.

D. The Applicant will coordinate with the Board Planner for the provision of additional landscaping to screen the drainage basin.

E. Compliance with all Township, County, State and Federal rules, regulations and ordinances.

F. Approval of all appropriate reviewing agencies including without limitation, the MUA, County Planning Board, Traffic Commander, Fire Marshall, Soil Conservation District, Department of Transportation and Police Department.

G. Compliance with the Board Engineer’s report and comments at the public hearing.

H. Compliance with the terms and conditions of the Board Planner’s report and comments at the public hearing.

I. Compliance with all representations made by the applicant at all public hearings.

J. All existing easements on the property shall be provided to the Board Solicitor for review. All proposed or required easements shall be subject to the Board Solicitor’s review and approval. All proposed or required easements for residential properties shall also be subject to three point notification (first contract of sale, deed into first home owner, and plan notation).

WHEREAS, a motion was duly made by Councilman Hutchinson and duly seconded by Mrs. Costa to approve the Preliminary and Final Major Site Plan with Bulk Variances with conditions as set forth above, and a roll call vote on the motion was recorded as follows:

ATTEST:

GLOUCESTER TOWNSHIP
PLANNING BOARD:

KENNETH LECHNER, SECRETARY

SCOTT OWENS, CHAIRMAN

CERTIFICATION

I HEREBY CERTIFY that this resolution of memorialization being adopted by action of the Board on this 9th day of August 2016 represents a true and correct copy of a resolution adopted by the Gloucester Township Planning Board at a meeting held on the 14th day of July, 2016.

KENNETH LECHNER, SECRETARY
LAND DEVELOPMENT APPLICATION CHECKLIST

Applicant must complete the following requirements to submit an application to the Planning Board or Zoning Board of Adjustment. No application shall be accepted without the items in the below checklist.

- Taxes Paid Certification.
- Land Development Application Form – completed, signed, and notarized.

Complete each of the following sections:

A. Is this application to subdivide a parcel of land into six or more lots?
B. Is this application for a variance to construct a multiple dwelling of 25 or more family units?
C. Is this application for approval on a site or sites for commercial purposes?
D. Is the applicant a corporation?
E. Is the applicant a limited liability corporation?
F. Is the applicant a partnership?

IF YES TO ANY OF THE ABOVE:

1. List the names and addresses of all stockholders or individual partners owning at least 10 percent of its stock of any class or at least 10 percent of the interest in partnership, as the case may be. (Use additional sheets as necessary).
2. Does a corporation or partnership own 10 percent or more of the stock in this corporation or partnership?

IF YES:

List the names and addresses of the stockholders of that corporation holding 10 percent or more of the stock or 10 percent or greater interest in that partnership, as the case may be. This requirement is to be followed by every corporate stockholder or partnership, until the names and addresses of the non-corporate stockholder and individual partners with 10 percent or more ownership have been listed. (Use additional sheets as necessary).

Re: Wells Fargo - Compliance Lighting Upgrade 2016
   1411 Blackwood Clementon Rd, Clementon, NJ 08021 (BE# 140197)

Dear Group Four Properties, LLC,

I am writing to inform you of an enhancement to our banking facilities at the above address. Wells Fargo Bank is undertaking a large project to upgrade ATM lighting, as mandated by state law and the Wells Fargo Security Policies, at multiple locations across various states, including the above location. Attached is a copy of the site plan, pictures denoting proposed location of new fixtures and fixture cut sheets. We plan to start within the next (30) thirty days.

If you have any concerns or questions, please contact Jennifer Dea at (949) 600-7666 or jdea@emgcorp.com. If you have no objections, please acknowledge your approval of our performing the work at the above location by signing and returning this letter via email within ten (10) business days after your receipt thereof.

Wells Fargo Bank appreciates your support in allowing us to provide our customers and employees with the highest level of service and security. Thank you for your cooperation.

Sincerely,

### III. APPLICATION SUBMISSION CHECKLIST

The Application has been in accordance with §817. Submission Checklist for a minor site plan.

The applicant must address the following omitted checklist requirements of request a waiver:

**It's not recommended to waive underlined checklist requirements**

1. **Four (4) copies of the Recycling Report.** [Checklist #8].
   
   a. The Applicant shall address the existing trash dumpster, which is located on a parking space and not within a proper enclosure constructed in accordance with ordinance requirements.

2. No application for development shall be considered complete until the applicant has calculated and delineated the area of wetlands based upon the methodology established by the New Jersey Department of Environmental Protection regulations (See §519) [Checklist #9].

3. "Minor Site Plan for (Name of Development)" [Checklist #13(a)].
   
   a. The plans shall provide a cover sheet indicating the proposed type of site plan.

4. **North arrow.** [Checklist #27].

5. **Scale not less than 1"=50’ with graphic and written scales shown.** [Checklist #28].

6. **Existing and proposed street and lot layout, with dimensions correct to scale, showing that portion proposed for development in relation to the entire tract.** [Checklist #46].

7. The names, locations, right-of-way widths and purposes of existing and proposed easements and other right-of-ways in the subdivision. [Checklist #47].

### IV. WAIVER COMMENTS

The Applicant requests a waiver from having to provide the following checklist requirements.

**It's not recommended to waive underlined checklist requirements**

1. A key map with north arrow showing the entire development and its relation to surrounding areas at a scale of not less than 1" = 2000’ [Checklist #32].
2. The names, addresses, block and lot numbers of all property owners within 200 feet of the development [Checklist #33].

3. Zones in which the property falls, zones of adjoining properties and all property within a 200 foot radius of the property in question [Checklist #35].

4. Existing and proposed building coverage in areas of square feet and as a percentage of the lot area [Checklist #36].

5. Existing and proposed lot coverage in acres of square feet and as a percentage of the lot area [Checklist #37].

6. Area of original tract to the nearest one hundredth of an acre [Checklist #38].

7. Proposed structures and uses of the tract, i.e., size, height, location, arrangement, and architect's scaled elevation of the front, side and rear of any structure to be modified, with building lighting details and attached signs [Checklist #39].

8. Floor plans where multiple or more than one use is proposed that have different parking standards [Checklist #42].

9. Existing signs including the location, size, and height [Checklist #43].

10. Proposed signs including the location, size, height and scaled elevations of the front, side, and rear of any size directed or modified including sign lighting details [Checklist #44].

11. Existing structures and uses on the tract to include the shortest distance between any existing building and proposed or existing building and proposed or existing lot line, and as indication of those to be removed [Checklist #52].

12. All side, rear, and front setback lines with dimensions [Checklist #53].

13. The site in relation to all remaining lands in the applicant's or owner's ownership [Checklist #54].

14. Appropriate places for the signature of the Chairperson and Secretary of the approving authority, the dates of the official approving authority actions, and dates of signatures [Checklist #55].

15. Existing elevations and contour lines over the entire area of the proposed development and two (2) permanent benchmarks based upon U.S.G.S datum [Checklist #56].

16. Contours shall be shown at not more than two (2) foot intervals for areas with less than twenty (20%) percent slope, five (5) foot intervals for areas in excess of twenty (20%) slope [Checklist #57].

17. Proposed grades in sufficient numbers to illustrate the proposed grading scheme [Checklist #58].

18. Location and dimensions of man made and/or natural features such as railroad rights-of-way, bridges, dams, soil types, wooded areas, individual tree or excess of ten (10) inches D.B.H. outside of wooded areas and rock outcrops. [Checklist #59].

19. Locations of all existing and proposed watercourse, i.e., lakes, streams, ponds, swamps or marsh areas, or under drain [Checklist #60].

20. Flood plain limits as determined by the Master Plan and onsite evaluations by a licensed professional engineer [Checklist #61].

21. Location of each inlet, manhole or other appurtenance [Checklist #67].

22. Slope of line [Checklist #68].

23. Pipe material type [Checklist #69].
24. Strength, class or thickness [Checklist #70].
25. Erosion control and soil stabilization method [Checklist #71].
26. Show evidence that plan meets with Ordinance requirements for septic systems. [Checklist #72].
27. Within a distance of 200 feet of development show the names, locations and dimensions of all existing streets and existing driveways, and any connections by the development to existing streets, sidewalks, bike routes, water, sewer, or gas mains [Checklist #74].
28. Traffic channelization [Checklist #76].
   a. It's recommended the plans be revised to indicate travel lanes, particularly for the existing drive-thru and ATM machine.
29. Fire lanes [Checklist #77].
30. Driveway aisles with dimensions [Checklist #78].
31. Parking spaces with size, number, location and handicapped spaces [Checklist #79].
32. Loading areas and number thereof [Checklist #80].
33. Curbs [Checklist #81].
34. Ramps for the handicapped [Checklist #82].
35. Sidewalks and bike routes [Checklist #83].
36. Any related facility for the movements and storage of goods, vehicles and persons [Checklist #84].
37. Directional signs with scaled drawings [Checklist #85].
38. Sight triangle easements at intersections. [Checklist #86].
39. Radii at curbline [Checklist #87].
40. Location of street names and signs. [Checklist #88].
41. Traffic control devices [Checklist #89].
42. Fencing, railroad ties, bollards and parking bumpers [Checklist #92].
43. Expansion plans for the proposed use shall show feasible parking and loading expansion plans to accompany building expansion [Checklist #93].
44. Cross Sections. [Checklist #94].
45. Proposed grades [Checklist #95].
46. Center line profiles at horizontal scale not less the 1" = 50' for all existing adjoining streets and proposed streets [Checklist #96].
47. Standard details for curbing, sidewalks, bike paths, paving, stoned or graveled surfaces, bollards, railroad ties and fences [Checklist #97].
48. For any storm drainage system, show the computations and any connection by the development to the existing storm drainage system [Checklist #104].
49. If private utilities are proposed, they shall fully comply fully with all township, county and state regulations. [Checklist #105].

V. VARIANCE COMMENTS
The instant application does not require any variances.
VI. MINOR SITE PLAN COMMENTS

1. The plans must be revised to provide a masonry trash enclosure as per §510.4,
   Refuse/Recyclable Storage Areas.
   a. The existing trash dumpster is located on a parking space and does not
      comply with current standards.

VII. LAND DEVELOPMENT ORDINANCE COMMENTS

The Applicant is advised of the following additional requirements of the Land
Development Ordinance:

1. A soil removal plan if soil is to be removed from the site for use or sale other
   than the premises subject to this application as per §801.3, Soil Removal.

2. A grading plan prepared and sealed by a licensed professional engineer as per
   §814, Grading Approval.

3. Affordable housing requirement as per §902, Affordable Housing Fees and
   Procedures.

4. Before recording final subdivision plats or as condition of final site plan approval
   or as a condition to the issuance of a zoning permit pursuant to N.J.S.A. 40:55D-
   6, the furnishing of a performance guarantee, maintenance guarantee, and
   inspection fees as per §903, Guarantees and Inspections and §904, Certification
   or Guarantee Required; Estimate of Guarantee.

5. Requirements precedent to construction as per §905, Pre-conditions to
   Commencement of Construction.

6. Construction of off-tract improvements as per §906, Off-Tract Improvements
   Recapture.

7. A zoning permit is required prior to the issuance of any construction permits and
   prior to the issuance of a Certificate of Occupancy by the Construction Official.
   The Applicant must acquire a Certificate of Zoning Conformity from the Zoning
   Officer as per §1102, Permits, General, §1103, Zoning Permit and §1104,
   Certificate of Zoning Conformity.

VIII. RECOMMENDATIONS

1. The applicant must address the underlined items listed above on the site plan.

I have no further comments regarding the application at this time. Should the Applicant have any
questions or wish to schedule a meeting to review our concerns, please contact our office at
(656) 374-3511.

Page 2 of 2

PROJECT SUMMARY:

This application is for modifications to the existing exterior site lighting of an existing Wells Fargo Bank on the northerly side of Blackwood Clementon Road in the Commerce Square shopping center. There are no changes to the site infrastructure being proposed by this application. The site is located in the Highway Commercial (HC) Zoning District. The applicant is seeking a Minor Site Plan approval.

REVIEW COMMENTS:

We have reviewed all information submitted for conformance with the Township's Land Development Ordinance and offer the following comments for your consideration:

1. The applicant shall provide a current survey of the property prepared by a New Jersey licensed land surveyor.

2. The plans shall provide a footing detail for the proposed pole mounted light.

3. The plans shall indicate on the Overall Photometric Plan the mounting height of each proposed pole mounted light.

4. The applicant shall comply with all applicable standards as set forth in Section 508 of the Gloucester Township Ordinance.

5. Our office has no objection to the requested waivers as indicated on the completed Land Development Checklist.

If there are any questions or if any additional information is required please contact this office.

Very truly yours,

GLOUCESTER PREMIUM OUTLETS
Applebee’s Neighborhood Grill and Bar
Block 13106, Lot 1

PRELIMINARY AND FINAL SITE PLAN APPROVAL

OPERATIONAL STATEMENT

The proposed Applebee’s Neighborhood Grill and Bar full service restaurant will occupy a previously approved out lot at the Gloucester Premium Outlets or a portion of Block 13106, Lot 1. Gloucester Premium Outlets® (the “Center”) consists of nine, single-story buildings dedicated to commercial retail and supporting services as well as other facilities and amenities encompassing approximately 413,320 s.f. of gross floor area. There are food kiosks as well as additional retail mobile merchandise units located throughout the Center. Tenants include upscale designer fashions, sportswear, shoes, fine leather, luggage, jewelry, housewares and home furnishings, specialty items, and various food merchants. In addition, under the present design, there are five separate buildings to be constructed on two outparcels (“Outparcel Development”) which accommodates another 31,580 s.f. of gross floor area. Retail, restaurants, banks and other complementary and supportive uses are contemplated for these structures. Thus, it is anticipated that the total square footage for both the Center and the Outparcel Development is approximately 444,900 s.f.

I. The Center

The Center operates year round. Typical hours of operation are Monday to Saturday, 10 AM - 9 PM, and Sunday, 10 AM - 7 PM. These hours may be modified at certain times throughout the year to accommodate for increased/decreased customer volumes during certain holiday and seasonal periods. Tenants staff their stores based upon experience and need i.e. each tenant will likely have its own “shift” changes.

Initially, the overall project will generate approximately 200 – 250 full time construction jobs. Once completed, approximately 800 new, full- and part-time job positions will be created to serve the many shoppers who will visit the Center each year.

Truck traffic will be heaviest during construction and prior to the grand-opening when tenants are outfitting the stores. Once the Center is operational and given the nature of this development, delivers can be expected at any time. Most deliveries will be made via courier delivery services by companies such as Federal Express or UPS. The Center’s design separates out deliveries from customer vehicular and pedestrian circulation.

As reflected within the various traffic, water quality/management and environmental reports filed simultaneously with the required prior approval for this project,
the Center and the Outparcel Development meet any and all required governmental standards.

II. The Applebee's Restaurant

The proposed Applebee's Neighborhood Grill and Bar full service restaurant (the "Restaurant") occupies a 4.42 acre lot and is approximately 6,400 square feet.

The Restaurant will be a sit down restaurant containing two hundred and twenty-five (225) seats in the dining and bar areas. The Restaurant is proposed to be open at 11:00 A.M. and close at 11:00 P.M. Sunday through Thursday. The Restaurant is proposed to open at 11:00 A.M. and close at 1:00 A.M. Friday and Saturday subject to seasonal trends and local codes.

The Restaurant will employ approximately one hundred and twenty (120) full and part-time associates inclusive of Managers, Kitchen Staff, and Bar and Dining Staff. The shift average will be +/- thirty (30) hours depending on daily and seasonal needs.

The Restaurant delivers for food and supplies will be made during the early morning hours after the Restaurant has closed. The frequency of such deliveries is expected to be three (3) time per week depending on sales and tractor trailer. Additional smaller deliveries are made in the morning via local box type trucks. Trash and recycling is also picked up during the early morning hours at a frequency of three to four times per week, similarly based on need.

Complete each of the following sections:
A. Is this application to subdivide a parcel of land into six or more lots?
B. Is this application for a variance to construct a multiple dwelling of 25 or more family units?
C. Is this application for approval of a site or sites for commercial purposes?
D. Is the applicant a corporation?
E. Is the applicant a limited liability corporation?
F. Is the applicant a partnership?

IF YES TO ANY OF THE ABOVE:

1. List the names and addresses of all stockholders or individual partners owning at least 10 percent of their stock or at least 10 percent of the interest in partnership, as the case may be. (Use additional sheets as necessary).

2. Does a corporation or partnership own 10 percent or more of the stock in this corporation or partnership?

IF YES:

List the names and addresses of the stockholders or partners holding 10 percent or more of the stock or 10 percent or greater interest in that corporation or partnership, as the case may be. This requirement is to be followed by every corporate stockholder or partnership until the names and addresses of all individuals and entities holding 10 percent or more ownership have been listed. (Use additional sheets as necessary).

II. REDEVELOPMENT PLAN COMMENTS

The following applies to the Interchange Redevelopment Plan.

The plans submitted with the instant application shall be revised to address the following omitted requirements of the Interchange Redevelopment Plan.

§2.0. Goals and Objectives:

1. The plans submitted with the instant application shall be revised as follows to address Goal #2, which provides direction that projects complement existing community assets, multi-modal transportation solutions, and walkable neighborhoods as per §2.0(2):
   a. The plans shall be revised to provide a concrete sidewalk along Premium Outlets Way from the connection of Robert E. Kelvey Boulevard extending northward approximately 350 feet to align with a recommended crosswalk connection to a recommended walkway and crosswalk for the instant application noted below in Section II.2(b).
      i. The purpose of this requirement is to improve pedestrian safety and mobility within the Interchange Redevelopment Area.
   b. The plans shall be revised to provide a pedestrian crosswalk within the parking area from proposed sidewalks along Premium Outlets Way as a physical improvement (i.e., concrete, brick pavers, etc.) in lieu of line striping.
      i. The purpose of this proposal is to improve pedestrian safety and mobility and may require elimination of some parking spaces.

2. The plans shall be revised to re-grade the area between the proposed parking area and Route 42 consistent with the preliminary approval that transitioned development into the natural slope of the of the subject property and removing an existing stockpile to address Goal #3, which requires redevelopment projects to be architecturally pleasing and contributing to a community’s sense of place as per §2.0(3).
a. The existing stockpile adds to existing vegetation that obstructs the viewshed of the proposed restaurant, landscaping, and Gloucester Premium Outlets from Route 42.

§3.1, IR – Interchange Redevelopment Plan
3. The subject parcel is located within the IR – interchange Redevelopment District as per §3.1, Interchange Redevelopment District (IR).
   a. Restaurants and other eating establishments is a permitted use within the Interchange Redevelopment Plan [§3.1.C(2)(c)].
   b. Planned Commercial Development is also a permitted use within the Interchange Redevelopment Plan [§3.1.C(4)(b)].

§3.1.K, Parking Standards
4. The Applicant shall provide expert testimony to satisfaction of the Planning Board addressing the adequacy of the proposed number of parking spaces to meet the expected demand of the proposed restaurant as per §3.1.K, Parking Standards.
   a. The Planning Board is advised the Interchange Redevelopment Plan does not rely on the Land Development Ordinance parking requirements and defers compliance to professional testimony of the applicant based on their expertise, professionals, and design considerations current to the time period and land uses.
      i. However, the Planning Board should note the Gloucester Township Land Development Ordinance would require the following parking requirements for a restaurant
         1. 1 space / 3 seats.
            a. The instant applicant proposes a 5,330 sf restaurant with 225 seats.
         2. 1 space / 2 employees.
            a. The Applicant shall provide testimony to address the number of employees per shift.

§3.1.N, Additional Requirements
5. The instant application proposes a connection to public water and sanitary sewerage facilities to be provided as per §3.1.N(1).
6. The Applicant shall provide testimony to satisfaction of the Planning Board addressing the proposed building architecture is "compatibly designed ... and suitably finished for aesthetic purposes" in its relation to elevations facing a street or residential areas as per §3.1.N(2).
7. Sheets 17 & 18 are signed and sealed by a NJ Licensed Landscape Architect as per §3.1.N(3).
8. It’s recommended the plans be revised to provide additional landscaping that comprises a mixture of shrubs, grasses, ground cover, etc. to enhance the aesthetics of the development and the vistas and viewsheds of the Interchange Redevelopment Area and the Township in the following location as per §3.1.N(4).
   a. Two (2) landscaped islands on the west side of the proposed restaurant.
9. The plans shall be revised to remove an existing stockpile and re-grade the area consistent with the preliminary approval as per §3.1.N(4).
10. The Applicant shall revise the plans to show the driveway sight triangle to ensure proposed landscaping complies with 425.D. Clear Sight Distance of the Gloucester Township Land Development Ordinance as per §3.1.N(5).
11. The Applicant shall provide professional testimony to the satisfaction of the Planning Board that the proposed signs are suitably sized and designed for the proposed development and consistent with Section 2. Goals and Objectives of the Interchange Redevelopment Plan as per §3.1.N(7).
12. The plans shall be revised to provide a pedestrian crosswalk within the parking area from a recommended concrete sidewalk along Premium Outlets Way as a physical improvement (i.e., concrete, brick pavers, etc.) in lieu of line striping as per §3.1.N(8).
a. The purpose of this proposal is to improve pedestrian safety and mobility and may require elimination of some parking spaces.

13. The Applicant shall provide professional testimony addressing the proposed lighting plan is suitably designed for the proposed land use and provides adequate illumination as per §3.1.N(9).
   a. The applicant proposes 25-foot high light standards with a double - shoe box shield for the parking area, which complies with the maximum height as per §506, Lighting of the Gloucester Township Land Development Ordinance.
   b. The Applicant proposes an average illumination of 2.17 footcandles and requires a waiver from §506, Lighting of the Gloucester Township Land Development Ordinance.
      i. The maximum average illumination is 2.0 footcandles.

14. The Applicant shall provide professional testimony addressing the proposed building cardinal point elevations are "architecturally appealing" and advance the scenic vistas and viewsheds of the development and Township as per §3.1.N(10).

III. APPLICATION SUBMISSION CHECKLIST

The Application has been reviewed for compliance with §817, Submission Checklist.

**It's not recommend to waive underlined items**

1. No application for development shall be considered complete until the applicant has calculated and delineated the area of wetlands based upon the methodology established by the New Jersey Department of Environmental Protection regulations (See §519) [Checklist #9].
   a. The Applicant previously provided an Environmental Impact Statement, as prepared by Langan Engineering, Environmental, Surveying and Landscape Architecture, D.P.C. dated 4/24/13, which indicated the absence of freshwater wetlands on the subject property.

2. **Proposed signs including the location, size, height and scaled elevations of the front, side, and rear of any side directed or modified including sign lighting details** [Checklist #44].
   a. The Interchange Redevelopment Plan does not have specific requirements for the number and size of free-standing and façade signs.
      i. The plans shall be revised to incorporate the proposed façade signage within the submitted Apple American Group Site Recommendation Book.
      ii. The Applicant shall provide testimony to address whether or not a free-standing sign is proposed for the instant application.

3. Sidewalks and bike routes [Checklist #83].
   a. The plans shall be revised to provide concrete sidewalk along Premium Outlets Way from the connection of Robert E. Kelley Boulevard extending northward approximately 350 feet to align with a recommended crosswalk connection to a proposed walkway for the instant application.

4. Sight triangle easements at intersections, [Checklist #86].
   a. The plans shall be revised to provide the sight triangle at the intersection of the entrance drive and Premium Outlets Way.

5. Center line profiles at horizontal scale not less the 1" = 50' for all existing adjoining streets and proposed streets [Checklist #96].
   a. Refer to the Board Engineer.
IV. WAIVER COMMENTS

1. Four (4) copies of the drainage calculations and engineer's report [Checklist #4].
   a. The Applicant previously provided a Stormwater Management Report and
      Stormwater Facilities Maintenance Plan, as prepared by Langan
      Engineering, Environmental, Surveying and Landscape Architecture, D.P.C.
      dated 4/24/13.

2. Four (4) copies of the Environmental Impact Statement (See §816) [Checklist #5].
   a. The Applicant previously provided an Environmental Impact Statement, as
      prepared by Langan Engineering, Environmental, Surveying and Landscape

3. Four (4) copies of the Traffic Impact Report (see §815) [Checklist #7].
   a. The Applicant previously provided a Traffic Impact Statement, as prepared
      by Langan Engineering, Environmental, Surveying and Landscape

V. VARIANCE COMMENTS

The typical bulk and setback variances are not part of applications within the Interchange
Redevelopment Plan.

Generally, applicants must comply with the goals and objectives of the redevelopment
plan regarding land uses and architectural considerations to the satisfaction of the
Redevelopment Entity and site development to the satisfaction of the Planning Board.

VI. SITE PLAN DESIGN REVIEW COMMENTS

1. The plan shall be revised to include additional lighting within the subject parcel as a
   landscape feature providing a streetscape that is architecturally pleasing and
   contributes to the Township's sense of place (Goal #3) by utilizing the HADCO,
   PSE&G Coigate l with Signature globe incorporating the "GT" brand and including
   banner posts and an electrical outlet at the following locations as per §508.D,
   Lighting:
   a. Each side of the development entrance or two (2) lights.

2. The plans shall be revised to provide concrete sidewalks at a minimum at the
   following location consistent with Goal #2 of the Interchange Redevelopment Plan
   and as per §516.A, Sidewalk, Curbs, Gutters, & Pedestrian Ways.
   a. Along Premium Outlets Way from the connection of Robert E. Kelley
      Boulevard extending northward approximately 350 feet to align with a
      recommended crosswalk connection to a recommended walkway and
      crosswalk.
   b. As a pedestrian link from the above required sidewalk along Premium Outlet
      Drive to a recommended crosswalk within the parking area consistent with
      Goal #2 of the Interchange Redevelopment Plan and as per §516.A,
      Sidewalk, Curbs, Gutters, & Pedestrian Ways.

3. The plans shall be revised to provide a pedestrian crosswalk within the parking area
   as a physical improvement (i.e., concrete, brick pavers, etc.) in lieu of line striping
   consistent with Goal #2 of the Interchange Redevelopment Plan and as per §516.A,
   Sidewalk, Curbs, Gutters, & Pedestrian Ways.
VII. GENERAL REVIEW COMMENTS
1. The plan shall be revised to relocate the "SILT FENCE (TYP.)" graphic to ensure an existing stockpile is cleared, graded consistent with the preliminary approval and landscaped to provide the recommended streetscape and scenic vistas required in the Interchange Redevelopment Plan.

VIII. LAND DEVELOPMENT ORDINANCE COMMENTS
The Applicant is advised of the following additional requirements of the Land Development Ordinance:

1. A soil removal plan if soil is to be removed from the site for use or sale other than the premises subject to this application as per §801.C, Soil Removal.

2. A grading plan prepared and sealed by licensed professional engineer as per §814, Grading Approval.

3. Before recording final subdivision plats or as condition of final site plan approval or as a condition to the issuance of a zoning permit pursuant to N.J.S.A. 40:50D-65d the furnishing of a performance guarantee, maintenance guarantee, and inspection fees as per §903, Guarantees and Inspections and §904, Certification or Guarantee Required; Estimate of Guarantee.

4. Requirements precedent to construction as per §905, Pre-conditions to Commencement of Construction.

5. Construction of off-tract improvements as per §906, Off-Tract Improvements Recapture.

6. A zoning permit is required prior to the issuance of any construction permits and prior to the issuance of a Certificate of Occupancy by the Construction Official the Applicant must acquire a Certificate of Zoning Conformity from the Zoning Officer as per §1102, Permits, General, §1103, Zoning Permit and §1104, Certificate of Zoning Conformity.

IX. RECOMMENDATIONS
1. The applicant must address the underlined items listed above.

I have no further comments regarding the application at this time; however, reserve the right to provide additional comments during the Planning Board meeting to advance the planning process. Should the Applicant have any questions or wish to schedule a meeting to review my concerns, please contact my office at (856) 374-3511.

Re: Proposed Applebee’s at The Gloucester Premium Outlets
   Block 13106, Lot 1
   Gloucester Township, Camden County, New Jersey

Dear Mr. O’Brien,

This letter is in response to your inquiry with regard to the availability of electric service for your proposed project.

Atlantic City Electric Co. anticipates having adequate power available to serve your project. The required electric service will be made available subject to our compliance with the rules and regulations of the New Jersey Board of Public Utilities and the New Jersey Department of Community Affairs, Office of Smart Growth. Contingent on these Terms and Conditions of Service are any customer contractual obligations including right of way easements and customer contributions in aid of construction that may be required.

Once you have developed your formal site plans and received the appropriate approvals, please formally apply for service by calling our New Business office at (856) 863-7906 and forward your plans to us so that we can develop our plans to provide you with the service requested. Please keep in mind that depending upon the extent of the work required to install our electric facilities that it may take up to 6 months from the date of your official service application request to complete / fulfill all the tasks associated with our design requirements.

If you should have any questions, please feel free to call me at 856-863-7910.

Sincerely,

RE: Availability of gas service to –
Zimmerman Rd & Premium Outlet Drive
Block 13106, Lot 1
Township of Gloucester, Camden County, NJ
Langan Project No.: 220095201

Dear Mr. O’Brien,

Thank you for your interest in natural gas service. We have reviewed your request and we will have adequate resources to serve NATURAL GAS to your new facility.

Before a final commitment can be made, exact load requirements must be reviewed to determine that our distribution system is physically and financially capable of delivery. This gas load information, along with site plans for your project, and an Application for Gas Service, can be forwarded to my office when they become available. Further, this request is contingent upon receipt of State, County or Municipal permits when required.

Please address any further inquiries to my attention. Thank you for your commitment to growth and development in Southern New Jersey.

Sincerely,

Ray Daley

A RESOLUTION OF THE GLOUCESTER TOWNSHIP PLANNING BOARD
MEMORIALIZING A PRELIMINARY AND FINAL MAJOR SITE PLAN APPROVAL
WITH BULK VARIANCES AND WAIVERS FOR
SIMON MANAGEMENT ASSOCIATES II, LLC
APPLICATION NO: 131009RDPFS

WHEREAS, on May 28, 2013 consideration was given to the application of
Simon Management Associates II, LLC (SIMON) and PREIT-Rubin, Inc. (PREIT) (collectively
hereinafter "Applicants") for the properties located at Block 13119, Lot 1, Block 13105, Lot 1
and Block 13106, Lot 1 (hereinafter "the Property") for preliminary and final major site plan
with waivers for the construction of a retail outlet center on Block 13119, Lot 1 and for
preliminary major site plan approval for the five pad sites on Block 13105, Lot 1 and Block
13106, Lot 1; and

WHEREAS, the Applicant is proposing construction of 450,000+/- square feet of
retail sales, services and related improvements, including associated parking, landscaping, a food
court, gathering areas, a central town square and other amenities and supporting structures in a
currently vacant area designated as the Interchange Redevelopment Area within the Township;
and

WHEREAS, the Applicant was represented by Louis L. D'Arminio, Esq., who
presented the application for preliminary and final major site plan with waivers indicating that
the Applicant is proposing construction of 450,000+/- square feet of retail sales, services and
related improvements, including associated parking, landscaping, a food court, gathering areas, a
central town square and other amenities and supporting structures in a currently vacant area
designated as the Interchange Redevelopment Area within the Township and the site is entirely
conforming with the conditions of the zone. Mr. D'Arminio stated that the Applicant was
seeking preliminary and final site plan approval for the main retail center on Block 13199, Lot 1,
but only preliminary site plan approval for the pad site, Block 13105, Lot 1 and Block 13106,
Lot 1, where the Applicant is proposing 5 pads for future development as restaurants or stand
alone uses. Mr. D'Arminio introduced the presenters who would be testifying in support of the
application as Danielle DeVita, Senior VP of Development from SIMON, John Dionis from
PREIT, Doug Williams of FRCH Design, Brian Conlon from Langan Engineering, Dan Discario
from Langan Engineering to discuss traffic and Greg Woodriff from Langan Engineering to
testify on planning compliance. Mr. D'Arminio also introduced the following items as exhibits
in support of the application:

A-1 Aerial provided by Langan Engineering
A-2 CS100 - Site Plan
A-3 Power Point Presentation by FRCH
A-4 Existing Conditions VL-102 - ATLA Land Title Survey
A-5 Pre-Development Watershed Map
WHEREAS Ms. DeVita testified first, stating that the Applicant is the largest real estate company in the world and that the Applicant is working on opening two other retail centers and expanding 5 others. Ms. DeVita testified that the Applicant has three similar centers in the area, Jersey Shore, Jackson and Philadelphia. Ms. DeVita testified that the data shows that customers will drive 45-60 miles to visit their existing centers and customers will spend hours at the center shopping and eating and the Applicant views their centers as destinations. Ms. DeVita testified that the Applicant is proposing 375,000 sf of leasable space and they are proposing a racetrack layout with exterior parking and various entrance points with about 100 merchants. Ms. DeVita testified that the Applicant will be providing a high level of architectural finish, consistent with the surrounding area along with a town center element. Mr. Dionis testified on behalf of co-applicant PREIT, stating that this application is part of a joint venture between PREIT and SIMON and that PREIT has been involved in other retail centers similar to the proposal in Cherry Hill, Voorhees and other joint ventures with SIMON.

Thereafter, Mr. Williams of FRCH, the architect on the project testified in support of the application, stating that the Applicant was implementing many design influences including the Main Street/Town Square concept and that other influences for the design were Georgian style architecture. Mr. Williams testified that the Applicant is proposing an open mall type center with nine (9) buildings separated by thirty (30) foot promenades. Mr. Williams further testified that the Applicant is proposing six (6) entry plaza along with a main entry area. Mr. Williams testified that the Applicant is proposing many variations on material, paint color, and other design elements to incorporate the Main Street feel. Mr. Williams testified that there are also proposed kiosks for further retail opportunities and service equipment will be screened by a wall system. Ms. Williams also testified that a bus plaza is proposed for public transportation.

Mr. Conlon, from Langan Engineering provided further testimony, focusing on the engineering related to the retail aspects of the project. Mr. Conlon testified that there are wetlands on the property and that the Applicant is proposing to use an existing stormwater basin. Mr. Conlon testified that the Applicant is proposing to remove all existing wooded areas and structures currently on the property. Mr. Conlon testified that the Applicant is proposing a racetrack design for the center with centrally located buildings and parking encompassing the buildings and no further than 300 feet from the retail. Mr. Conlon testified about the numerous entrances to the site and the design of the rig road that can handle truck and emergency traffic. Mr. Conlon testified that all access lanes will accommodate all types of vehicles and the Applicant has engaged NJ Transit to make the center a stop on the local bus route. Mr. Conlon testified about pedestrian access, noting that the Applicant is proposing to utilize existing sidewalks on Robert E. Kelly Blvd., which will pick up the sidewalks along Cooper St and into the site. The Applicant is also proposing a six (6) foot wide multi use path along the Black
Horse Pike and is proposing to provide the design to the satisfaction of the Board Engineer and Planner as a condition of approval. Mr. Conlon provided testimony regarding the existing wetlands on the property and the Applicant’s intent to disturb a small portion but that the Applicant plans to compensate with the addition of wetlands buffers in other areas on site. Mr. Conlon testified that the Applicant is proposing a significant change in grading and drainage on site post-development and is proposing three stormwater features, a 35 acre pond at the northwestern corner of the site, a subsurface stormwater management system in the south end of the site and the currently existing extended detention basin along College Dr. Mr. Conlon provided testimony that sanitary sewer would be drained offsite into an existing system and pumped into the sewer, that water would have two connections on the Black Horse Pike and a system that loops into the buildings and that other utilities, electric, telephone and gas would connect off of Black Horse Pike except for the currently existing infrastructure along College Dr. Mr. Conlon provided testimony about the landscape plan, stating that the Applicant is proposing to maintain the wooded area along the Black Horse Pike and use a meadow mix for the stormwater features. Mr. Conlon testified that the Applicant will provide the required plantings in the parking, service and loading areas and is proposing a well balanced mix of landscape on site. Upon discussion, Mr. Conlon and the Applicant agreed to low shrubs and wildflowers around the stormwater basins, agreed to cleanup of the wooded area through natural maintenance and to work on the lighting requests of the Township with the architect and engineers. Mr. Conlon provided testimony about the Applicant’s proposed lighting, stating that the Applicant proposes 49 poles of 40 foot height in the parking lot spaced traditionally and that after meeting with staff, the Applicant has agreed to provide additional lighting along the roadways including 12.5 foot high acorn fixtures along the Black Horse Pike, College Dr. and Cooper Dr., spaced approximately every 75 feet. The Applicant is also proposing lighting to frame entrances and will comply with the lighting demands of the Township so long as permitting related to wetlands is not impacted. Mr. Conlon testified that the overall average lighting intensity will be 2.8 candles throughout the site. Mr. Conlon testified as to the Environmental Impact Statement, providing that the key element was preservation of wetlands a commitment the Applicant has made. Mr. Conlon concluded his testimony by stating that the Applicant is not requesting variance from requirements but is requesting waivers as follows:

1. Grading and Land Disturbance within 5 ft. of the Property Line as the Applicant is not proposing any disturbances except for new access to site and road widening for County roads.

2. Average foot candles not to exceed 2.0 foot candles as there is no nuisance to neighboring property owners as the lighting is currently proposed.

3. Loading and unloading areas

4. Concrete curb and sidewalks

5. Lumineer mounting height exceeding 25 feet

The Board Engineer and the Board Planner did not object to these waiver requests and supported them in light of the Applicants changes to the pedestrian links to add the multi use
path at the Black Horse Pike and connect the pedestrian walkways connecting Camden County College. Further, the Board professionals were willing to provide waiver requests based upon the Applicant agreeing to the streetscape lighting proposed by the Township and the Applicant has agreed to work with the Board professionals to finalize design and general details. Mr. Conlon stated that otherwise, the Applicant would comply with the comments of the Board Engineer's letter with the exception of the alternate striping material subject to review by the Board Engineer.

Mr. Discario from Lanagan Engineering thereafter provided testimony in support of the application as it related to traffic on and off the site and the impact the site will have on the same. Mr. Discario testified that given the current infrastructure traffic patterns are currently efficient and will remain so into the future. Mr. Discario did recommend additional improvements:

1. along Cooper Dr., to convert the inside lane in southbound direction to center two-way left turn lane to provide access for left turns into the main outlet center;

2. widen Cooper Dr. at the main entrance to provide deceleration lanes;

3. install traffic signal at main entrance to facilitate turning into and out of main outlet center; and

4. propose to widen the northbound side of Zimmerman for an additional lane for those exiting from Route 42.

Mr. Discario further testified that by taking currently existing County infrastructure and improving it, the Applicant will accommodate future traffic. Mr. Discario testified that the proposal is consistent with the redevelopment plan and the surrounding area and will remain efficient. Mr. Discario testified that the application provided safe and efficient ingress/egress and has no substantial negative impact on traffic in surrounding areas. Mr. Discario addressed the Gloucester Township Police concerns and indicated that the Applicant would comply and work with the Township Police with respect to Title 39 adoption to modify it to meet the needs of the Applicant and the Township.

Thereafter, Mr. Woodruff from Lanagan Engineering testified relative to the Interchange Redevelopment Plan goals and objectives, testifying that the application meets or exceeds the objectives and goals and that the unique aspects of the site justify the requested waivers. Mr. Woodruff testified that the proposed lighting, both height and luminosity is consistent with centers of this size and that implementing the curbing and sidewalk requirements would have a significant impact on the stormwater management on and off site. Mr. Woodruff testified that the site provided a number of challenges but that the goals and objective of the Interchange Redevelopment Plan have been met; and

WHEREAS the Board members expressed certain concerns about the application including the naming of the center, the maintenance of the stormwater facilities, ornamental lighting and branding of the center on behalf of the Township; and
WHEREAS the Application was opened to the public and Warren Strumpfer of Blackwood estates expressed concerns about traffic and water drainage; and

WHEREAS, the Planning Board having received reports from professionals and other advisors to the Board including, without limitation, the Zoning Officer, Board Engineer, Board Planner, County Planning Board, Traffic Commander, Fire Marshall, Tax Assessor, Water Department and Municipal Utilities Authorities having heard testimony from the Board Planner and Board Engineer makes the following factual findings in conditionally approving the subject application for preliminary and final major site plan approval:

1. Existing Zoning: IR - Interchange Redevelopment District

2. Intended Use: Retail

3. The Board Planner Planner, Kenneth D. Lechmer, PP. AICP, reviewed voluminous plans and issued a report dated May 22, 2013 recommending certain revisions, clarification and/or modifications to the plans with which the applicant agreed to comply to the extent that they had not done so already or weren't requesting waiver from same.

4. The Board Engineer Steven M. Bach, PE, RA, PP, CME, reviewed voluminous plans and issued a report dated May 22, 2013 recommending certain revisions, clarification and/or modifications to the plans with which the applicant agreed to comply to the extent that they had not done so already or weren't requesting waiver from same.

NOW, THEREFORE BE IT RESOLVED, after considering the foregoing facts the Board concludes that Simon Management Associates II, LLC and PREIT-Rubin, Inc.'s application for preliminary and final major site plan approval with waivers has substantial merit and should be approved subject, however, to the following conditions:

A) Compliance with all Township, County, State and Federal rules, regulations and ordinances.

B) Approval of all appropriate reviewing agencies including without limitation, the MUA, County Planning Board, Traffic Commander, Fire Marshall, Soil Conservation District, Department of Transportation and Police Department.

C) Compliance with the Board Engineer’s report and comments at the public hearing

D) Compliance with the terms and conditions of the Board Planner’s report and comments at the public hearing.

E) Compliance with all representations made by the applicant at all public hearings.
F) All existing easements on the property shall be provided to the Board Solicitor for review. All proposed or required easements shall be subject to the Board Solicitor’s review and approval. All proposed or required easements for residential properties shall also be subject to three point notification (first contract of sale, deed into first home owner and plan notation.)

WHEREAS, a motion was duly made by Mr. Pearce and duly seconded by Mr. Guevara to approve the Preliminary and Final Major Site Plan and grant waivers as requested for Block 13199, Lot 1 with conditions as set forth during testimony and Preliminary Major Site Plan Approval for Block 13105, Lot 1 and Block 13106, Lot 1 as set forth during testimony and a roll call vote on the motion was recorded as follows:

ATTEST:

KENNETH LECHNER, SECRETARY

GLOUCESTER TOWNSHIP PLANNING BOARD:

EDWARD PEARCE, VICE CHAIRMAN

CERTIFICATION

I HEREBY CERTIFY that this resolution of memorialization being adopted by action of the Board on this 23rd day of July 2013 represents a true and correct copy of a resolution adopted by the Gloucester Township Planning Board at a meeting held on the 28th day of May 2013.

KENNETH LECHNER, SECRETARY
A RESOLUTION OF THE GLOUCESTER TOWNSHIP PLANNING BOARD
MEMORIALIZING AMENDED PRELIMINARY AND FINAL MAJOR SITE PLAN
APPROVAL FOR SIMON MANAGEMENT ASSOCIATES II, LLC
APPLICATION NO: 131009RDPFSAI

WHEREAS, on July 23, 2013 consideration was given to the application of
Simon Management Associates II, LLC (SIMON) and PREIT-Rubin, Inc. (PREIT) (collectively
hereinafter "Applicants") for the properties located at Block 13199, Lot 1, Block 13105, Lot 1
and Block 13106, Lot 1 (hereinafter "the Property") for amended preliminary and final major site
plan with waivers for the construction of a retail outlet center on Block 13199, Lot 1 and for
preliminary major site plan approval for the five pad sites on Block 13105, Lot 1 and Block
13106, Lot 1; and

WHEREAS, the Applicant is proposing construction of 450,000+/- square feet of
retail sales, services and related improvements, including associated parking, landscaping, a food
court, gathering areas, a central town square and other amenities and supporting structures in a
portion of a currently vacant area designated as the Interchange Redevelopment Area within the
Township; and

WHEREAS, the Applicant previously received preliminary and final major site
plan approval with bulk variances and waivers for the retail outlet center proposed for Block
13199, Lot 1, and preliminary major site plan approval for the outparcel areas for complementary
uses on Block 13105, Lot 1 and Block 13106, Lot 1 through a resolution of the Planning Board
dated July 23, 2013 under Application No. 131009RDPFS; and

WHEREAS, the Applicant now presents to the Board requesting to amend the
previously approved major site plan to include signage and lighting elements which were not
previously presented for this application; and

WHEREAS, the Applicant was again represented by Louis L. D'Arminio, Esq.,
who presented the application for amended preliminary and final major site plan with waivers
indicating that the Applicant is amending the prior approvals to present and gain approval for the
sign package and the new lighting plan. The site previously received preliminary and final major
site plan approval for construction of 450,000+/- square feet of retail sales, services and related
improvements, including associated parking, landscaping, a food court, gathering areas, a central
town square and other amenities in the area designated within the Interchange Redevelopment
Area. Mr. D'Arminio introduced the presenters who would be testifying in support of the
application as Douglas Williams, the Director of Architecture at FRCH Design who is providing
expert testimony regarding signage and Brian Conlon, P.E., from Langan Engineering who is
providing expert testimony regarding certain signage elements, the lighting on site and
surrounding the property, and changes made in the plan per the last Board approval. Mr.
D'Arminio also introduced the following items as exhibits in support of the application:
WHEREAS, Mr. Williams of FRCH, the architect on the project testified in support of the sign package, stating that the Applicant was proposing a number of different sign types on the site including monument signs, pylon signs, signage identifying the site, directional signage for automobiles, parking field signage, bus plaza signage, service port signage, signage for the exterior elevations of the buildings, signage for the exterior entrance of the site and temporary signage while construction is taking place. Mr. Williams testified with the exception of the temporary signage, the Applicant's site signage will be constructed with consistent materials compared with the entire site and font and other elements on signage would be consistent site-wide. Mr. Williams testified that the Applicant was proposing conforming signage requiring no additional variances.

Mr. Conlon, from Langan Engineering provided various site engineering testimony including results from a study concerning the visibility of the pylon signage from the roadway, site lighting, amendments to the plan to conform with comments from the prior approval and wetland buffer adjustments on the site. Specifically, Mr. Conlon testified that the size of the pylon signage was justified given the high rate of speed on Route 42 and the ability of motorists to see the signage in sufficient time to safely navigate the roadway and exit for the center if necessary. Further, Mr. Conlon provided testimony that the Applicant was proposing an ornamental lighting package consistent with the Board's original request with some modification. The Applicant will be adding a total of thirty (30) ornamental lights, twenty-four (24) on College Drive and Blackhorse Pike, plus two (2) lights at each of the three (3) entrances to the retail outlet center on Cooper Drive and Zimmerman Road. Mr. Conlon testified that the Applicant is proposing to place ornamental "Acorn" lights consistent with the lights throughout the Township approximately eighteen (18) feet in height and spaced at every one hundred (100) feet on the designated roadways except in areas that are either not part of the site/owned by Applicant or where the Applicant could not place lighting due to wetlands concerns. Mr. Conlon provided testimony that the lighting would be maintained by the Applicant. Mr. Conlon additionally provided testimony that the site plans had been revised to meet the amendments requested previously with regard to the six (6) foot wide walkway along Black Horse Pike and Zimmerman Road and also the addition of sidewalk on the plan at the Cooper Drive and Robert E. Kelly Drive intersection. Mr. Conlon also clarified that, due to wetlands restrictions, certain of the requested shrubbery removal would either be limited or would have to be done without machinery. Mr. Conlon also testified that the Applicant has agreed to comply with all comments provided by the Board professionals in their reports except for the naming requirement which was withdrawn by the Board professionals, and certain other provisions which have been clarified on the Record; and

WHEREAS the Application was opened to the public and the following members of the public appeared to speak about the application:

1. Paul DiBartolo - expressed concerns about ownership of the site, incentives for the development provided by the Township and the draw for the proposed retail outlets;
2. Mark and Melissa Malfara - expressed concerns about the location of the proposed development to their house and the hours of construction of the site, along with the concern about increased traffic at the site upon completion and the impact on their property as a result;

3. Lou DeStefano - expressed concerns about congestion in the area and safe traffic; and

WHEREAS, the Planning Board having received reports from professionals and other advisors to the Board including, without limitation, the Zoning Officer, Board Engineer, Board Planner, County Planning Board, Traffic Commander, Fire Marshall, Tax Assessor, Water Department and Municipal Utilities Authorities having heard testimony from the Board Planner and Board Engineer makes the following factual findings in conditionally approving the subject application for preliminary and final major site plan approval:

1. Existing Zoning: IR - Interchange Redevelopment District

2. Intended Use: Retail

3. The Board Planner, Kenneth D. Lechner, PP, AICP, reviewed voluminous plans and issued a report dated July 22, 2013 recommending certain revisions, clarification and/or modifications to the plans with which the applicant agreed to comply to the extent that they had not done so already or were not requesting waiver from same.

4. The Board Engineer Steven M. Bach, PE, RA, PP, CME, reviewed voluminous plans and issued a report dated July 18, 2013 recommending certain revisions, clarification and/or modifications to the plans with which the applicant agreed to comply to the extent that they had not done so already or were not requesting waiver from same.

NOW, THEREFORE BE IT RESOLVED, after considering the foregoing facts the Board concludes that Simon Management Associates II, LLC and PREIT-Rubin, Inc.'s application for amended preliminary and final major site plan approval has substantial merit and should be approved subject, however, to the following conditions:

A) Compliance with all Township, County, State and Federal rules, regulations and ordinances.

B) Approval of all appropriate reviewing agencies including without limitation, the MUA, County Planning Board, Traffic Commander, Fire Marshall, Soil Conservation District, Department of Transportation and Police Department.

C) Compliance with the Board Engineer's report and comments at the public hearing except where otherwise indicated.
D) Compliance with the terms and conditions of the Board Planner's report and comments at the public hearing, except where otherwise indicated.

E) Compliance with all representations made by the applicant at all public hearings.

F) All existing easements on the property shall be provided to the Board Solicitor for review. All proposed or required easements shall be subject to the Board Solicitor's review and approval.

WHEREAS, a motion was duly made by Mr. Owens and duly seconded by Mr. Guevara to approve the Amended Preliminary and Final Major Site Plan for Block 13199, Lot 1 with conditions as set forth during testimony and a roll call vote on the motion was recorded as follows:

Date: 13 June 2016

Re: Applebee’s at the Gloucester Premium Outlets
Amended Preliminary and Final Major Site Plan
Stormwater Management Summary
Applicant: Apple New Jersey, LLC
Langan Project No.: 220095201

This memo summarizes the engineering design of the stormwater conveyance and management systems for the amended site plan application for the proposed Applebee’s restaurant (Retail/Restaurant E) at The Gloucester Premium Outlets. The design and regulatory conformance of this site plan amendment references the previously-approved plans (Preliminary and Final Major Site Plan for Gloucester Premium Outlets, last revised 27 March 2015) and stormwater management report (Stormwater Management Report for the Gloucester Premium Outlets, last revised 14 April 2014), both completed by Langan. This previous application received approval for Preliminary and Final Major Site Plan from the Gloucester Township Planning Board Resolution under Application #131009RDPFS, adopted July 23, 2013, and most recently amended under Application #131009RDPFSAI, adopted August 27, 2013.

The subject site is at the existing Gloucester Premium Outlets property, located near the intersection of Robert E. Kelly Boulevard (aka County Route 763) and Premium Outlets Way (aka County Route 762) in Gloucester Township, Camden County, New Jersey. Retail/Restaurant E is located on the northern portion of Block 13106, Lot 1. The entirety of the Gloucester Premium Outlets most recently received amended preliminary and final major site plan approval for construction of 450,000 sq ft of "retail sales, services and related improvements..." To date, a total of 417,283 square feet has been constructed on Lot 13199, Lot 1 which comprises the Gloucester Premium Outlets.

The current application consists of the construction of an Applebee’s restaurant. The original Retail/Restaurant E building was entitled at 5,625 square feet and the proposed Applebee’s building is 5,330 square feet, a decrease of 295 square feet.

As the site work on Lot 13106, Lot 1 was not completed in the initial phase of construction, additional associated improvements are proposed in the southern corner of the site, including curbing, pavement, striping, utilities, storm drainage, landscaping etc. The subject parcel was graded and stoned during construction for use as a parking area for contractors.

The stormwater conveyance and management systems for the entire Gloucester Premium Outlets property were designed in accordance with the New Jersey Administrative Code (N.J.A.C.) Chapter 8 (Stormwater Management), the New Jersey BMP Manual (April 2004), the
New Jersey Residential Site Improvement Standards, and the Gloucester Township Land Development Regulations, as detailed in Stormwater Management Report for the Gloucester Premium Outlets, last revised 14 April 2014, as prepared by Langan. The stormwater management system approved and constructed for the project consisted of the following features:

- A subsurface collection and conveyance system with catch basins, manholes and underground pipes that capture and convey the stormwater runoff generated by the 25-year design storm (a 24-hour storm with Type III distribution)
- One surface extended detention stormwater management basin;
- One surface infiltration basin;
- A subsurface stormwater management infiltration and detention system; and
- A manufactured water quality treatment device.

A majority of the runoff generated by the improved site is collected via inlets and conveyed to one of the above elements. The entire stormwater management system is designed to accommodate the 100-year post-development stormwater runoff volume for the full build-out of the property.

Storm drainage facilities constructed as part of the initial phases of development will remain in place to service the proposed improvements. The entire stormwater management infrastructure on Block 13199, Lot 1 has been constructed. A 24" RCP conveyance pipe was extended from Block 13199, Lot 1 to Block 13106, Lot 1 into an existing catch during initial construction, as originally designed. The stormwater collection and conveyance system for Applebee’s will be constructed in generally the same manner as the originally designed system. This collection and conveyance system will connect into the previously constructed storm drainage facilities via a catch basin along the Premium Outlets Way frontage. Hydraulic analysis for this system is attached, showing that the system is designed to convey the 25-year, 24-hour Type III design storm event.

Drainage patterns and the overall intent of the existing stormwater management system remains the same as originally designed. Runoff collected from Block 13106, Lot 1 will be directed to inlets and pipes which drain directly to a catchbasin along Premium Outlets Way, which ultimately discharges to Infiltration Basin A on Block 13199, Lot 1. As a result of the proposed amendment to the site plan, the total area draining to this catch basin is unchanged, the impervious coverage decreased slightly from 53.2% (102,500 square feet) to 51.4% (98,952 square feet) resulting in a slight reduction in runoff volume and a slight improvement in water quality.

In conclusion, the stormwater collection and management systems for the fully developed Gloucester Premium Outlets have been adequately designed and constructed to accommodate the proposed development. The improvements included in this amended site plan application are consistent with the original site design and meet the original design requirements.
To: Gloucester Township Planning Board

Re: Recycling Report
Applebee’s at the Gloucester Premium Outlets
Gloucester Township, Camden County, New Jersey
Langen Project No.: 220985201

Allow this memorandum to represent the “Recycling Report” for Applebee’s at the Gloucester Premium Outlets in accordance with the Land Development Ordinance of Gloucester Township, Article 06, (V.) - Performance and Design Standards, Section 502 - Performance Standards for All Uses, 1.5(b and c) Storage and Waste Disposal.

b. Each application for a non-residential use which utilizes one thousand (1,000) square feet or more of land shall include provisions for the collection, disposition, and recycling of recyclable materials. Each application shall quantify the amount of recyclable material it will generate as part of its weekly generation, including newspapers, leaves, white high-grade paper, glass bottles and jars, aluminum, corrugated cardboard and tin and bimetal cans. The application shall provide a storage area to contain a week’s accumulation of recyclable material.

c. Storage area for recyclable materials shall be designed for truck access for pick-up of materials and be suitably screened from view if located outside a building.

Apple New Jersey, LLC anticipates the following recyclable materials to be generated at the project site:

- Paper, cardboard, glass bottles and jars; plastic bottles, jars and packaging materials and aluminum cans
  - Recyclable materials will be comingled. One 8-yard container will be provided and is expected to be emptied 3 to 4 times per week depending upon demand. Approximately 24 to 32 yards of recyclable materials are expected per week.
- Leaves and grass clippings
  - Leaves and grass clippings will be collected and removed seasonally, as required, by a professional landscaper or grounds maintenance company.

All trash and recyclable containers will be located in the service area near the rear of the building and screened with walls and landscaping.
CERTIFICATE AS TO RESOLUTIONS OF THE MANAGING MEMBER OF SIMON/PREIT GLOUCESTER DEVELOPMENT, LLC

The undersigned, Darryl E. Gugig, hereby certifies that:

1. He is the duly qualified and acting Assistant Secretary of Gloucester Simon Member, LLC, a Delaware limited liability company (the “Company”), the managing member of Gloucester Premium Outlets Member, LLC, a Delaware limited liability company, the managing member of Simon/PREIT Gloucester Development, LLC (the “LLC”).

2. The LLC is the owner of the real property and improvements comprising that certain retail center known as Gloucester Premium Outlets located in Blackwood, New Jersey (the “Property” which is a Portfolio Property as defined in Paragraph 3 hereof).

3. The following resolutions were duly adopted and ratified by consent of Simon Property Group, L.P., the sole member of the Company (the “Member”) by written consent on August 25, 2014, and the same remain in full force and effect:

   RESOLVED, that the Company now owns and may hereafter acquire, directly or indirectly, through one or more partnerships in which the Company is a direct or indirect general partner and limited liability companies in which the Company is a direct or indirect member (such partnerships and limited liability companies being hereinafter individually referred to as “Entity” and collectively referred to as “Entities”), one or more properties or interests therein (individually, a “Portfolio Property” and collectively, the “Portfolio Properties”) which the Company and/or one or more of the Entities shall develop, construct, reconstitute, repair, maintain, lease, manage, finance, redevelop, refinance, expand, renovate, remodel, release, mortgage, operate, sell or convey (other than all or substantially all of the assets of the Company/or the Entities) and otherwise deal in and with a Portfolio Property or the Portfolio Properties.

   FURTHER RESOLVED, that the ownership and operation of each of the Portfolio Properties as described above shall require the execution, delivery and performance on behalf of each of the Entities including, without limitation, leases, and sub-leases to department stores and other tenants, parking covenants and agreements, easement agreements, reciprocal easement and operating agreements, assumed names and similar filings, supplemental agreements, purchase and sale agreements, deeds, declarations, licenses, service agreements, contracts, cancellations, assignments, consents, indemnities, notes, mortgages, deeds of trust, security agreements, loan agreements, loan applications, term sheets, environmental indemnities, guarantees (both payment and performance), swaps, caps, hedges, collars and other interest rate protection agreements, and various additional documents, instruments, certificates and agreements (collectively, the “Property Documents”).

   FURTHER RESOLVED, that the Member deems it necessary, appropriate and advisable and in the best business interests of the Company, for itself and on behalf of each of the Entities, to undertake all necessary, appropriate and/or advisable actions with respect to, and to execute, deliver and perform all of, the Property Documents.

   FURTHER RESOLVED, that any of the Chairman of the Board, Chief
Executive Officer, President, any Vice President, the Secretary, any Assistant Secretary, the Treasurer, or any Assistant Treasurer (the "Authorized Officers") of the Company be and each of them hereby is, authorized to do and perform (or cause to be done and performed), in the name and on behalf of the Company, for itself and on behalf of each of the Entities, all such acts and things and to make, execute and deliver (or cause to be made, executed and delivered) all such agreements, guaranties, documents, instruments, certificates, consents and waivers as any such officer or officers may deem necessary or advisable to carry out the intent of the foregoing resolutions, and that all acts and things previously done and performed (or caused to be done and performed) in the name and on behalf of the Company, for itself and on behalf of each of the Entities, prior to the date of these resolutions, are hereby approved, ratified and confirmed in all respects.

4. The following persons have been duly elected to serve as officers of the Company at the pleasure of the sole member or until the election, qualification and taking of office of their successors, and each is an Authorized Officer:

# Camden County Planning Division

## Submission Requirements

### Subdivisions:

- [ ] Two (2) Copies of County Planning Board Application
  - Lower left hand corner MUST BE SIGNED and classified by appropriate local official)
- [ ] One (1) Copy of Municipal/Township Application
- [ ] One (1) Copy of Fee Schedule, Filled Out and Signed
  - (Check made payable to Camden County Treasurer)
- [ ] One (1) Set of Plans
- [ ] Two (2) Copies of the Affidavit of Ownership
- [ ] One (1) Copy of Pineland's Certificate of Filing (If applicable)

### Site Plans:

- [x] Two (2) Copies of Camden County Planning Board Application
  - (Lower left hand corner MUST BE SIGNED and classified by appropriate local official)
- [x] One (1) Copy of Municipal/Township Application
- [x] One (1) County Fee Schedule, Filled Out & Signed
  - (Check made payable to Camden County Treasurer)
- [x] Two (2) Sets of Drainage Calculations
  - (Data based upon 10 YEAR -PRE; and a 25 YEAR -POST Year Storm Event)
- [x] Two (2) Sets of Traffic Impact Study (If applicable)
- [x] Two (2) Copies of the Affidavit of Ownership
- [x] One (1) Copy of Pineland's Certificate of Filing (If applicable)
- [x] One (1) Copy of Local Engineer's Report
- [x] Two (2) Copies of a signed and sealed survey conducted by a licensed surveyor or if existing conditions are referenced in accordance with N.J.A.C 13:40-7.2 (a) 1
  - All Dedication, Basement, Deed, Etc. (Documents must be submitted to the Planning Division Staff at least thirty (30) working days prior to the scheduled Planning Board meeting. No provisional approvals will be issued at Planning Board meeting.)

### Final or Revised Plans:

- [x] Two (2) Copies of County Planning Board Application
- [x] Two (2) Sets of Signed & Sealed Plans
- [x] One (1) County Fee Schedule, Filled Out & Signed
  - (Check made payable to Camden County Treasurer)

### Additional Requirements:

- [ ] Please submit a map (highlighted copy) of your parcel and a most recent aerial photo of your parcel.
- [ ] A digital copy of only the Site Plan and Elevations. The purpose of this image is to illustrate the basic character of the preliminary plan. The digital image should be provided in the form of pdf on a CD. If the plan was not digitally created, provide an "OCR" jpeg copy of the plan. Label CD with plan name & CCPD file number.
